

## Clark's Testimonials - A Small Sample...

by Tim Bolen

Breast cancer. Oncologist said he could not believe it and never saw anything like it in 30 years. Miriam Herzog, Brooklyn, NY: "I had a tumor in my breast, and the biopsy revealed it was breast cancer. Someone told me about the Clark therapy. I had nothing to lose. I started electrical zapping and taking the parasite herbs, and stopped using many chemical products. I had surgery 3 weeks later and they removed a tumor the size of an egg. My tissue was sent to the lab to check for malignancy. I repeatedly called the oncologist, who said he did not have an answer yet. I finally saw him two weeks after the surgery. I asked why I had to wait so long, and he said the biopsy came back negative the first time, but he had the lab retest to be positive the results were accurate. He said he could not believe it at first, and in 30 years of practice he had never seen anything like this! He said that I was the lucky one, and no further treatment was necessary. I want to help and share my story with others who believe that it can't be true!"

Doctor used Clark therapy to cure his prostate cancer, now treats cancer patients with significant success.

Dr. W. van Ewijk, M.D., Ph.D. (Holland): "Dr. Clark, I confirm your approach to cancer is very effective. I was diagnosed with prostate cancer. The surgeon canceled radical prostatectomy. I treat cancer patients with your protocol and have had significant success."

Doctor says parasites key link to cancer

Dr. E. O'Dell Woods, Utah: "I have researched cancer cures for 47 years. This is about my experience with Dr. Clark's method. I found parasites as the key link in the cause of cancer. With the parasites dead, no more cancer. I am a cancer survivor, and continue to take Dr. Clark's preventive herbs."

Deserve Nobel Prize, Dr. Clark, for your discovery of cause of cancer

Thea Backay, Germany: "You deserve the Nobel Prize, Dr. Clark, for your discovery of the cause of cancer. I was so fortunate your book came after my breast cancer operation. It saved me from chemo and radiation. I am completely in good health and lost all my fears."

No longer have breast cancer because of Dr. Clark

Estelle Morris: "My daughter (homeopathic physician) recommended The Cure for Cancer when I had breast cancer. I've cleansed my life style, no longer have a problem and am on maintenance two times a week. Two years later I feel great."

4th stage of cancer, nothing doctors could do. Oncologist says a miracle. still Alive 6 years later

Internet, Reedy, CA: "My Oncologist explained I was in the 4th stage of cancer and there was nothing more they could do. I found Dr. Clark's book, followed instructions and was cured. My oncologist redid all the tests. When the results came back he called me and said: 'I can only say it is a miracle.' That was 1994."

Clark therapy Cured bladder cancer

Marc Stragier: "I have used Dr. Clark's therapy since 1996 to cure bladder cancer. Feel free to publish my phone in case I can help."

Clark therapy Cured malignant breast tumor

Arthur Doerksen, engineer: "I very successfully used Dr. Clark's approach to get rid of a malignant breast tumor. On Feb. '95, my wife and I spent 2 hours with Dr. Clark. I tested free of malignancy, but had high mercury levels from tooth fillings. Dr. Clark told us correctly we had a gas leak in our home 1600 miles away because we had high vanadium levels. She found that in about 2 seconds. If it sounds too good to be true, you'll be pleasantly surprised if you follow her advice."

Clark therapy cured Prostate cancer, PSA normal. refused surgery

Internet, Beatrice, MD "My husband started on Dr. Clark's therapy one week after being diagnosed with prostate cancer. He flatly refused the only option by the doctors: Cut it out, the sooner, the better. Three months later, his PSA dropped to normal. This was over 3 years ago. Physical exams are normal, no tumor was found."

Successfully recovered from massive brain tumor using clark therapy after given terminal prognosis

Clark Presswood CDR US (Ret): "Dr. Clark's amazing techniques were a major factor in my successful recovery from a massive brain tumor for which I had been given a terminal prognosis. I am telling all of her continued efforts to help thousands of people find their way back to health."

Clark therapy Cured multiple melanoma

Charlotte Weiland: "Dr. Clark, your therapy cured my aunt of multiple melanoma."

Dr. Clark should receive Nobel Prize

Michelle Timmermans, New Zealand: Dr. Clark is known and respected for her discoveries and she has saved many lives, not only those of her patients but also the lives of the hundreds upon thousands of people who have treated themselves following guidelines from her books. Detaining Dr. Clark is criminal, this woman should not be persecuted, but should instead receive a Nobel prize for the good she has brought to humankind. We all know that the cancer industry feels greatly threatened by her discoveries, and that the purpose of this arrest is to stop her doing her work.

Doctors looked in vain for the cancer, the cancer disappeared

Ronald P. Muka: I convinced my mother to try the Dr. Clark's herbal treatment. Although she never took the herbs for more than eight days at a time, the cancer disappeared. Her doctors looked in vain for the cancer for a long time. My mother had no other treatment for cancer than the herbal treatment set out in Dr. Clark's book.

Cured cancer after reading Clark's book. Healing with medicine is nearly impossible

I am self doing patient having cured my cancer in 1998, after reading Dr. Clark's books with significant improvements in our health. I am alive, feeling healthy and want to stay well until my end. All pharmaproducts did not help, radiation also did not, and surgery can only cut off cancer, but not cure it. Healing of cancers with traditional medicine is nearly impossible. Heinz Hadamzik, Germany

Cancer in remission after Clark therapy

David Deutsch, Va.: I know of Dr. Clark's good works through my own contact with her writings, as well as first hand experience of a good friend whose cancer went into remission after treatment at her clinic.

Had cancer 5 years ago, followed Dr. Clark, alive and well

Karen Butler. This letter is to inform you that I support Dr. Clark in her work. I had cancer 5 years ago this December, and I followed her work. Needless to say I am alive and doing well. I have seen many good doctors go down because they did not follow the conventional treatments, and I find this appalling.

Cancer free today after Clark program

N.G.: Three years ago I had a masectomy. At that time I began the program that Dr. Clark prescribes and I am cancer free today. I believe that God and the wisdom of Dr. Clark saved my life. Please do not take away the opportunity to get better from others that need Dr. Clark's research and help so badly.

Followed Dr. Clark's book and Ovarian cancer gone

Diane Dailey, Mt. Since March I've been using the zapper, the parasite program and have followed almost all in Dr. Clark's The Cure for All Cancers. I'm happy to tell you that I'm quite sure that my cancer is about gone! I have no pain and I feel wonderful. I'm 53 years old, had ovarian cancer, surgery, and chemotherapy in 1996. My CA125 started going up in the fall of 1997. I tried many different alternative treatments, and I now know that I've found the answer with the parasite program and the zapper.

Had terminal cancer with only a few days to live, now improving with great results

Jerrold Warner: My father with terminal cancer who only had a few days to live. When I went to visit him Thursday night I could see he looked better, but he did not actually start to improve with great results until I started three zapping sessions per day, and Extra Strength Walnut enemas. I also started some bolosus from the Cancer Salves Book and the Trifolium Compound, and I can say, it all worked thanks to Dr. Clark and God.

Dr. Clark Clinic in Switzerland

David Amrein, President Dr. Clark Clinic, Switzerland: Colon cancer gone in 10 days; esophageal cancerous tumor shrinking; boy with diabetes blood sugar better than ever. A person with terminal colon cancer was turned around in as little as 10 days. The patient was very eager to follow the Clark program and was very meticulous. She immediately reaped the benefits, which could be easily seen on subsequent X-rays. Another patient had esophageal cancer with a huge tumor, he

could hardly swallow. All the cleanups were done immediately and the whole protocol was implemented, since there was no time to lose. In just days the patient could swallow bits again, and within two weeks he felt considerably better and the tumors started shrinking, since one growth was on the outside this was clearly visible. A boy with diabetes was started on the zapper. Before we could even start him on the parasite herbs, his blood sugar behavior improved immensely; according to the boy's mother it was better than ever the past four years.

Dr. Clark solved the most threatening disease of mankind, cancer.

Wolfgang Roesner, Germany: Her successes witnessed by many people indicate that she is doing important work for the whole mankind in her clinic. She seems to be on the way to solve one of the most threatening diseases of man, cancer.

Followed Clark program, one year later survived Pancreatic Cancer, gained weight, healthy blood counts

P. J. Null: My husband, a pancreatic cancer patient, has been following Dr. Clark's parasite control program for a year. He has survived admirably, gained weight throughout his treatment, maintained healthy blood counts, and has been a wonderful success story. His cancer is now in remission! (Very few pancreatic cancer patients survive 2 months past diagnosis) This woman is a candidate for sainthood!

Had Cervical cancer, followed Dr. Clark's book with remarkable results

Ellyn Olson: I had been diagnosed with minor cervical cancer, and went through a hysterectomy. Since then, I had not been happy with the subsequent follow up by traditional doctors. I started following Dr. Clark's advice in her books, and have had remarkable results! The first time I used the zapper, dead fluke worms were very noticeable in my stools! I had been extremely fatigued all of the time \_\_ would be in bed every day between 7 and 8. Since zapping, my energy levels have increased DRAMATICALLY! I am able to start new projects with enthusiasm, and never feel tired! The only change in my life\_style is that I have been following the advice in Dr. Clark's books!

Dr. Clark's therapy Cured Terminal Lung Cancer. Doctors say it's a miracle

Hans Kuijt, The Netherlands: We live in the Netherlands and this year I heard for the first time about Dr. Hulda Clark. I bought all the books and a zapper and I and my wife became much better with the cure against the parasites. A friend of ours had terminal lung cancer and the doctors in the hospital said there was nothing more to do. On our advice she started with the cure against the parasites including using the zapper. She is now doing fine. The doctors in the hospital don't know what happened... it's a miracle for them.

Survived terminal liver cancer, would not be alive without Dr. Clark's treatment

V. Zivadinovic, Australia: Two and half years ago I got terminal liver cancer (primary) and was given 2 to 6 months to live. First I used breuss and after three months Dr. Clark's cancer cures for next 15 months. I am 59 years old, feel great and looking for job. I had hepatitis B for a long time and my liver was badly damage. Many people diagnosed with my cancer are dead or killed by orthodox methods. I didn't use any of them. My story was on TV channel 7 program verifying it all with catscans. I could guarantee that no cancer patient would die from cancer using Dr. Clark's

treatments. This was not a fluke, I am an engineer for atomic and nuclear physics, and I can understand and comprehend both treatments. I have all my catscans. Without her treatment I would not be alive. For any help do not hesitate to call or write.

Colon cancer. No to surgery. Dr. Clark's therapy saved his life and no sign of cancer 3 years later

Harold Brewer: Dr. Clark has given so much to the world. She saved my life after having had colon cancer, and the doctor wanted to take a foot of my colon out. A friend gave me the information by Dr. Clark and I started on the parasite program \_\_ NO SURGERY and after examination NO CANCER DETECTED, and now it is 3 years later.

Diagnosed with terminal prostate cancer. After clark protocol certified cancer free by doctor

Shirley K. Barnes, Canada: I was a party to the cure of my neighbor, Henry Leguyder, of terminal prostate cancer. Under my guidance, he followed Dr. Hulda Clark's recommendations, and is now cancer\_free, certified by his doctor. His PSA, which was 85, is now 3.4. His doctor, who had pronounced him terminal and said there was nothing more he could do, now says he has no cancer. Henry did nothing more than follow Dr. Clark's' recommendations (zapping, detoxifying, and taking herbs), taking vitamins and improving his diet. I just talked to him and his wife and they are still thanking me for giving them the information that cured him. I am attaching his write\_up of the incredible journey he made back to health with the help of Dr. Hulda Clark's book. Our world is blessed to have her offer us an effective means of curing illness.

Father followed Clark's cancer program and Brain Cancer Receding

Ralph Wyndham: My father had followed Hulda Clark's cancer program and turned his rapidly growing brain cancer into a receding cancer. The doctor was so delighted that the Catscan done at the end of January had shown that the cancer had receded.

Had Ovarian cancer, no doubts Hulda Clark saved her life

Diane Daley, MT: I had ovarian cancer in June 1996. I had surgery and chemotherapy. Then in the fall of 1997, the cancer came back. I was tested by my oncologist and went twice to the Mayo Clinic in Rochester for more tests. The only thing they could offer was more chemo. I decided that I'd rather die than go through that again. I know that chemotherapy could not cure my cancer, that it could prolong my life but that I would have no quality of life. I read and tried everything alternative medicine had to offer. Finally, in March, I followed Hulda Clark's advice in The Cure for All Cancers. I used the herbs and zapper. Almost immediately I could feel the cancer stop growing. I no longer have any pain. I have no doubt that Hulda Clark saved my life and I'll be forever grateful.

Cured skin cancer

Lt/Col. George Walker, USAF, Tampa, FL: I cured myself of skin cancer by using the zapper together with other unconventional means. The blunt truth is that virtually every household could greatly benefit by having a copy of Dr Clark's wonderful book, The Cure for all Diseases, and a low cost zapper. About 100 years ago most physicians were far more aware that most humans are loaded with parasites and the general health level is often a matter of keeping them at some acceptable level. Dr Clark's research shows a simple, low cost, effective way.

Dr. Clark freely tells the public how to cure cancer for little cost and Prosecutor attempts to stop dissemination of the information

J.V.: The "war" on cancer being waged by conventional medicine and the pharmaceutical companies is not being won. The incidence of cancer is increasing. New and ever stronger pathogens are emerging as they develop resistance to ever more powerful antibiotics. Meanwhile, the drug companies make huge profits and we, the public, are all losers. Now comes Dr. Hulda Clark who freely tells the public how we can cure ourselves of these scourges for little cost and Prosecutor James Oliver attempts to stop dissemination of the information. Who stands to gain if he is successful? As Deep Throat reportedly said during the Watergate cover\_up, "Follow the money.

84 year OLD great grandmother cured pancreatic cancer

Brandon C. Martin: I'd like to tell you about our elderly neighbor who was diagnosed with pancreatic cancer. Medical science had given up on her. Her flesh had an orange color to it. Late last year she acquired Dr Clark's book, bought the herbs and took them faithfully. In a month her color was back to normal and her waistline decreased 3 inches. With great energy , this 84 year old great grandmother, who lives alone, resumed her household duties, cooking and baking for her large extended family. Thank you for your steadfastness in pursuing the truth.

Cured of brain cancer, tumor gone after being diagnosed with Stage 3 brain cancer

JG: We just received the great news that JL is cured of cancer! She is 30 and was suffering from Stage 3 brain cancer. Chemo was failing her as there was new growth after the chemo treatments. She was closely following the parasite cleanse and using the zapper. She went to a local clinic for a body scan and was told that they couldn't pick up any evidence that she had cancer. She had her MD schedule a special test in Phoenix in hopes that the medical community would agree with the alternative therapist. Sure enough, results just came back that the growth of her tumor was not only retarded but she showed no evidence of any tumor at all! Dr. Clark has touched another desperately ill person.

Had malignant melanoma on leg for a year and a half. Two weeks after parasite program, red spot was gone and brown SPOT gradually fading

Yende Bilih: Five years ago a brown spot appeared on my leg. It then grew larger and later had some red in it. The doctor took a biopsy, told me it was malignant melanoma, and said that if I didn't get it cut out right away I would lose my leg or my life. For one year I didn't do anything and it did get worse. Then I followed The Cure for all Cancers by Dr Clark. Immediately I made all the changes she suggested. . It had been there for a year and a half. I thank Hulda so much for enlightening me to all the evils that were trying to destroy my body.

Cancer growth on right ear lobe. FIVE years after clark protocol still okay

C. Ponnagh: I was diagnosed with a cancer growth on my right ear lobe. I went to the John Wayne Cancer Center and was told I should have a third of my ear removed. I went to see Dr. Clark and so far after 5 years I'm okay.

No recurrence of breast cancer

Edna E. Roeh, Selah, WA: I had a lumpectomy for breast cancer in January 1994. I chose not to have a mastectomy, chemotherapy or radiation. I followed Dr Hulda Clark's book and made a zapper to kill the parasites that all people with cancer have. I used the zapper for over a year. I have had no recurrence of cancer, and I feel fine. Her method is inexpensive, painless, and gets results in a short period of time.

Had prostate cancer for 3 years, AND SAID no to surgery, chemo, radiation. AFTER CLARK THERAPY no symptoms of cancer whatsoever.

I am 52, and had prostate cancer for three years. I did not have surgery, chemo or radiation, nor do I intend to. I firmly believe in cleansing the body to rid us of degenerative diseases and don't believe the medical community has ever cured a single case of cancer, except by dumb luck. I have done all the cleanses and built a zapper. Now I am doing colonics and am being treated by an Ayurvedic dentist. I still have had no symptoms of cancer whatsoever. I feel better than I ever have in my life and assuming I win this battle, cancer has been a real blessing. Thank you for your wisdom Dr Clark.

Dr. Clark has given me the cure for cancer before I get it, effectively extending my future life

Debbie Tech: Hulda Clark changed my life. She taught me how to eat right and be healthy and how very important it is to remove chemicals from my house and my body. She has given me the cure for cancer before I get it, effectively extending my future life. Dr Clark has given me a new life \_ one where I can feel good for the first time instead of being a walking garbage dump \_ full of toxins and feeling like it.

Absolutely astonishing" therapists says in describing results with diabetics, and what medicine says cannot be done, in spite of billions of dollars and decades of research.

Nancy Callahan: holds a Bachelor of Science Degree in Nutrition, with a special interest in therapeutic nutrition and natural medicine for chronic health conditions. Several of Nancy's articles have been published in holistic health journals and local publications. She has researched the effects of nutrition on health and disease for over 10 years. Nothing in her years of study prepared her for the claims of one research scientist, Dr. Hulda Clark, who claimed to have found not only the causes, but the cures for all types of chronic, degenerative disease. This would certainly have to be verified, she believed. After two years of extensive investigation and successful use of the Clark Method on both herself and several clients, some of whom were diabetics, Nancy's practice is now limited to educating people on using the Clark Method with special interest in educating clients with Diabetes on the findings of Dr. Hulda Clark.

With the aid of Dr. Clark's previous and now newest findings as to the causes and reversal processes of Diabetes, Nancy went on to develop The Diabetes Recovery Program that can be used for Type 1 and Type 2 Diabetes. The Program can reverse Diabetes and can reduce or eliminate Diabetic complications in 50% to 100% of all cases, provided the client adheres to the program. "Absolutely astonishing" is the only way Nancy can describe it when her clients accomplish what medicine and science currently says cannot be done, in spite of billions of dollars and decades of research.

Zapper gets rid of 20 year old cyst in breast

Linda Vega: I had a mammogram which showed a cyst in my left breast the size of an egg. My doctor wanted to do surgery and I said no. I had the cyst for more than 20 years. I Got Dr. Clark's Zapper and used it every day. I Went back for another mammogram and the cyst was gone. I thank Dr. Clark for making my breast cyst free.

Breast cancer, no to chemo, surgery, radiation. mammogram and physical exam four years later - free and clear.

Estelle Morris, Nashville, TN: In July 1995 I was diagnosed with breast cancer. I didn't view it as a death sentence as many people do. A friend recommended The Cure for all Cancer. I did what was recommended in Dr. Clark's book.no chemo, no surgery, and no radiation. The oncologist wanted to do a masectomy and take care of the lymph nodes. He was told 'no way.' In December of 1995 I had another mammogram and physical exam \_ free and clear. Latest mammogram was December 29, 1999 \_ negative. I am 85 years old.

The surgeon came back with the pathologist's report and was amazed! the cancer that had spread was no longer cancer.

(Road to Health Newsletter): Three years ago I was diagnosed with endometrial cancer. I started taking the parasite herbs 4 days before I went into the hospital. I took it very seriously! The day after surgery the surgeon told me I had stage 3, aggressive and invasive cancer which had spread. He wasn't hopeful \_ I wasn't chagrined. Two days later, the surgeon came back to see me with the pathologist's report \_ with a changed demeanor \_ he now was amazed! He told me that the cancer which had spread was no longer cancer. But he would insist that I still have chemotherapy and radiation (despite the fact that I had said earlier that I would not.). But I did consent to visit the cancer clinic. The doctors and other personnel used all their persuasive savvy to convince me to have not only further surgery, but chemo and radiation as well. I told them I needed to think about it. (I had no intention of submitting to all that). I went home, phoned them back to say "No," and continued with Dr. Clark's methods. Three weeks later I was back at work. Since then I work 2 jobs and remain alive and well! Thank you Dr. Clark. All my friends know about you!

Recovered from advanced aids WITH incredibly quick reduction in HIV count

Steven: Dear David, you cannot believe how very happy I feel to be able to write to you about my close friend's incredibly quick reductions in HIV after using Dr. Clark's protocol. That very quick reduction in HIV count was beyond my expectations, as I thought certainly Dr. Clark must be wrong in her assertions that HIV would quickly reduce after cleansing the thymus gland. Even though I was the one pushing and prompting my friend to at least try Dr. Clark's protocol, I was a bit skeptical that such dramatic reduction would occur in my friend who had some serious problems related to health, not just the two crainiotomies. In considering his recovery from advanced AIDS which was for over ten years per his internist, and following two serious and taxing surgeries which had already seriously depleted any reserves he may have had, that recovery was even more dramatic. He also had a terrible case of molluscum contagiosum on his face, which after treatments and removal have never returned, either!

Cancer marker, CA\_125 is near normal

Patricia Qualls: I want to tell you that I bought the book A Cure for All Cancers, and the last two times I went for my blood work my CA\_125 is near normal. I thank God every day for Dr. Clark and the person who told me about the book.

Declined chemo, cured colon cancer

Mike Gorgichuk, E.T. Project Coordinator Strategic Initiatives, gorgicm@novachem.com: I had colon cancer and have treated myself with the suggestions from Dr. Clark's book. To make a long story short the results from Dr. Clark's book saved my life. I followed the parasite cleanse and am on the maintenance program, and have done the kidney cleanse and 3 liver cleanses in a year. I follow her advice as well as some other natural methods and so far I'm still here. After having surgery to remove a 7" tumor (details too long to explain) from my colon, I declined chemo and have had excellent results on tests ever since. I applaud Hulda Clark whenever I hear her name. No doomsayer can give me cause to derail my support for a great learned Lady.

Fibrotic cysts in breasts for 30 years. After removing metal dentalware mammogram showed cysts gone

Dr. Clark, your treatments have helped me in a big way. Since about 1970 I have been diagnosed with fibrotic cyst in my breasts. I had all my dental work changed from metal fillings to plastic fillings, costing about \$1,000. It was well worth it. I had a mammogram about six months after finishing my dental work and all my fibrotic cysts were gone. I take the parasite treatment every week and do many of the other suggestions in your books. Keep up the good work and put all doctors and hospitals on the prevention of disease rather than promoting it.

If not for Dr. Clark, she would be a cancer patient receiving allopathic treatment

Arthur and Susan Lloyd, Payson, AZ, crossv@cybertrails.com: I would like to say how much I admire Hulda Clark and all the good she has brought about. I have used all her methods of cleansing and until this day I practice her cleanses regularly. I believe if I hadn't found her work, I would be one of the cancer patients today receiving allopathic treatments. When I did her parasite cleanse, kidney cleanse and liver cleanse I passed many parasites, kept samples, which were clearly the ones shown in her book as flukes. I have passed to word to many, many people who have also completed her cleanses with great success.

Oncologist amazed as Prostate cancer gone and PSA went from 24 to zero

Robert Leslie Neyman, Captain, U.S. Navy (Retired), Laguna Woods, CA: I am 84 years old and am now in good health. About two years ago my doctor informed me my PSA was at 24 and climbing. He told me that I must see an oncologist who told me that I undoubtedly had cancer and had three choices: chemo, radiation or surgery. I declined all three and followed the instructions in Dr. Clark's book rigorously. Within three months my PSA reading had been reduced to zero, and I have had no further problems. My oncologist was amazed! This is further substantiation that the medical community does not want to find a cure for cancer. Dr. Clark saved me and saved the government from the expensive and painful treatments I would have had to undergo.

Terminal cancer in lung, now clean x-ray and Doctors Are Wondering

Bev and Paul Baker: We have a friend who had been told that he had terminal cancer in his lung with six months to live and with chemo. He had 3 treatments of chemo. A day later we got him the parasite herbs. He is also taking Shaklee's Liqui\_Lea for tiredness, L\_Acidophilus to clear the lymph nodes, Shaklee's Alfalfa for swelling, another B\_2 possibly, and echinacea besides the parasite treatment. He made his peace with his God. About two weeks ago he went for a checkup.

The doctor said his white count was normal, to their surprise. He has not been sick. He had gained nine pounds. He had been tired and felt some "weight" on his chest. He took three more treatments of chemo.

Our friend called us yesterday and said the doctors are really wondering, because they found a clear x\_ray and compared it to the other x\_rays. We believe God decided to heal Jerry, but we are all grateful and want to thank Dr. Clark for her caring. My husband loaned Jerry a zapper and made the black walnut tincture He spends a lot of time and energy studying and has helped a lot of people to get help from these writings. We want to express thanks for this and many other people getting help and we use Dr. Clark's books all the time.

NO to cut, burn, poison and prostate problems now gone

I read and talked to people who said NO to doctors. By the grace of GOD, I feel he lead me to Dr. Clark's books. He heard me tell the medical establishment I wasn't ready to die yet, my daughters needed me a lot more than you needed to add to your statistics, to prove that you were GOD and had ALL the answers and that if we didn't follow your cut, burn and poison treatment, that we had NO hope. Well as John Wayne should have said, "go to hell by yourself, I am not ready yet."

Cervical cancer, remarkable results. dead flukeworms very noticeable in stool after zapping

Ellyn Olson, angelsone@mediaone.net: I had been diagnosed with minor cervical cancer, and went through a hysterectomy. Since then, I have not been happy with the subsequent follow up provided by traditional doctors. I started following Dr. Clark's advice and have had remarkable results! The first time I used the Zapper, dead flukeworms were very noticeable in my stools! I had been extremely fatigued all of the time. Since zapping, my energy levels have increased DRAMATICALLY! I am able to start new projects with enthusiasm, and never feel tired! The only change in my life\_style has been what I have been following in Dr. Clark's books!

Cured of cancer because of Hulda Clark's book

Karen Svihus, qailmail@concentric.net: My mom was cured of cancer, confirmed by her MD. She refused radiation, chemo and surgery. She did exactly what Hulda Clark describes in her books, with a maintenance program 2 times per week, and is cured. So, get burned, poisoned and cut up or follow Dr. Clark's program and get cured.

Cured of Herpes, friend's breast cancer cured

Von: Oskar Mar Thorvaldsson, design@oskar.net: I have personally been cured of herpes using Dr. Clark's method. Her methods are beyond doubt, and extreme effective cure for all types of ailments. A friend, Jesse Garcia, had breast cancer, and followed Dr. Clark's method and was CURED. It is beyond my understanding that educated people can give into pressures from "modern" medicine and pharmaceutical interest groups to hinder her research. Jessie Garcia, CA: I had breast cancer 4 years ago and followed Dr. Clark's parasite cleanse and my cancer was totally gone in 7 months.

DR. CLARK GAVE ME Second chance WITH CANCER after medical industry left me for dead.

Internet, Atlanta, GA: Second chance after medical industry left me for dead. I was introduced to Hulda Clark's work by a friend of mine who was also in grave health. Not only was I able to resume a productive, normal life again, but had other perks. I was one of many women on Long

Island, NY who had lumpy breasts, or fibrocystic type breasts. This is an epidemic pre-cancerous condition that is so common nowadays, they are calling it a breast type. Within three days of making Clark's suggested changes in my personal products, ALL lumps were GONE. During my next OB/GYN exam when my breasts were checked the doctor double checked my chart, then my breasts, then my chart, and like usual kept quiet to cover up what she saw as another doctor's misdiagnosis. Actually, it was just a cure. Breast cancer is optional., if you heed Clark's advice. Also, my skin tone improved to it's natural rosy color, so that a friend of the family mentioned that I had a sunburn. This had been my normal coloration before my health turned bad. My eye color as well became brighter and more distinctly green within one week of following Clark's suggestions. My bright hazel green eyes had become dark and almost completely brown before my health was restored. A number of people have asked if I was wearing colored contact lenses, and I have been confronted in that way when getting a new driver's license. My friend who shared the information she had learned about Clark's book never had the courage to just try to change, even though so much was at stake. Unfortunately, not all people have the courage to change or try something new or be open minded about that which is not endorsed by the AMA and other big-business profit machines. I've met few doctors who can even bother themselves with keeping up to date with the latest mainstream medical journals. It is a busy life-style they lead. Hulda Clark's suggestions will change your life if you have the guts to follow them - you will not necessarily have the support of your doctor, but you will once again have the good health you crave.

Refused chemo

Nellie Carter, Pastor: "They checked my breast, took blood test. Everything was normal. I refused chemo."

Quite sure that my cancer is about gone!

Diane Dailey MT: Since March I've been using the zapper, the parasite program and have followed almost all in The Cure for All Cancers. I'm happy to tell you that I'm quite sure that my cancer is about gone! I have no pain and I feel wonderful. I'm 53 years old. I had ovarian cancer, surgery, and chemotherapy in 1996. My CA125 started going up in the fall of 1997. I have tried many different alternative treatments, and I now know that I've found the answer with the parasite program and the zapper (once I stepped it up to 3 times per day)

Pretty worthwhile in comparison to Chemo, gallbladder operation or kidney stones

Gayle Lozier, FL: "I am very thankful for Hulda's efforts and whenever I have someone whining to me that they don't want to give up their "romance" with particular products, I just mention that \$150 to \$250 worth of products dumped is pretty worthwhile in comparison to Chemo, a gall bladder operation or kidney stones, etc. Now, the liver cleanse really was over the top as far as a major health improvement! After 4 cleanses I divorced myself from approx. 1,600 stones, from the size of pencil erasers to my thumb! My energy level is off the roof. The Lugol's iodine travels with me now that I know the cause of gas, pain, and stomach upset. It is invaluable."

Cancer in remission after treatment by Dr. Clark

David Deutsch, Midlothian, VA: I know of Dr. Clark's good works through my own contact, as well as first hand experience of a good friend whose cancer went into remission after treatment at her facility. I urge the authorities to leave her unmolested to pursue her work that is highly

respected by many open minded medical doctors, as well as many in the alternative medicine community.

#### Cancer free today

Derek Kuntz, dk@primenet.com, Strategic Technology Alliance: Three years ago I had a masectomy. At that time I began what Dr. Clark prescribes and I am cancer free today. I believe that God and the wisdom of Dr. Clark saved my life. Please do not take the opportunity to get better that I found with Dr. Clark away from others that need this research and help so badly.

#### Cured breast cancer

Alcides Echevarria, hombrearana@worldnet.att: I'm helping my friend with metastasized breast cancer which was discovered last year. Started taking Essaic tea and then stopped while following Dr. Clark's book. Doctors could not believe my friend was still working, they thought she should be in a hospital. She stopped seeing old\_school, arrogant close\_minded doctors to treat her cancer. Learned a huge amount from Dr. Clark's book, parasites, bacteria, viruses, zapping, toxins, liver cleanses, constipation cures. She would rather follow natural remedies than be exposed to chemo or radiation. (I too can cure a hang nail by cutting off an arm).

Tumors gone after 3 weeks. Oncologist said another patient with leukemia also did parasite cleanse and also doing fine

Carole Terry: I believe in Hulda Clark On October 8, 1998, at age 55, I was diagnosed with cutaneous T Cell sarcoma. I was given a few months to live. A bone marrow was done and a catscan was taken four days later, coincident with the commencement of chemotherapy. A week later, the results of the bone marrow and catscan indicated a more promising prognosis \_\_ I could live another five years. Five months of chemotherapy ensued. At the end of the chemotherapy (February), my oncologist and I were pleased with the results. Chemo was done! He would see me again in three months. Unfortunately in mid April, the lymphoma returned. The largest tumor was removed but two more tumors grew. The doctors felt that neither chemo nor surgery would work so they decided to try radiation.

In Canada, we have a waiting period to try radiation so it was booked for July. I was terrified of having radiation and decided to pursue Hulda Clark's book the Cure for All Cancers, which I had bought during my chemotherapy sessions. Commencing with the daily kidney cleanse tea, and then adding the parasite cleanse, I followed the regimen in her book.

Three weeks later, the tumors were gone! On July 7, I met with the radiologist as it was a consultation only. He examined me and said, you don't need radiation, you look great. He also confirmed that radiation, as it is a 'spot' treatment, would not get all the cancer, only certain tumors. He was very interested in the cleanses I was taking and researched the ingredients while I was at the hospital. His conclusion was they were doing me no harm, in fact 'wormwood' is known in medical circles to kill tumors and advised he would render a report to my oncologist. The radiologist recommended a kidney test to ensure the cleanse was not toxic to my kidneys; however, he felt the dose was too minimal to be toxic. August 9, I saw my oncologist and after several blood and kidney tests, was told I did not need to see him again. I could expect to live a 'normal life expectancy was fine! We have jointly agreed to checkups every 3 months as a preventative measure.

Interestingly, I showed him a bottle of the parasite cleanse and he said I was the second of his patients to show him the cleanse, the other patient had leukemia, and was doing as well as I. I returned from two weeks, touring, hiking and exploring the Canadian Rockies. I feel great, thanks to Hulda Clark. I realize that testimonials can be 'a dime a dozen' but having being diagnosed with what we all dread, Cancer, I decided early in my diagnosis that I had to take control of my healing and exhaust all opportunities \_ dying was never on my agenda. What did I have to lose, nothing and I had my life to gain. My two daughters thought I was crazy to do the cleanse but support it wholeheartedly now. There are many of us taking the cleanse and doing well, some who have refused all conventional medical treatment (chemotherapy and radiation). I think I owe my life to Hulda Clark's parasite cleanse. Should you wish to confirm any information with me, you have my E\_MAIL address, my home address is 2138 Greenway Terrace, Burlington, Ontario, Canada L7M 4K9. My home Phone Number is 905 331\_6598

By following Dr. Clark's book survived from Stage III breast cancer

Virginia(tandv@pacifier.com): I am a cancer survivor from Stage III breast cancer which is gone. Dr. Clark's book gave me a look at the parasite world that opened my eyes to many why's. After using the herbs and following instructions, I can say I got rid of something bad. My skin is clear and I'm no longer anemic. The Liver Cleanse got rid of many stones just as Dr. Clark said it would. I am one grateful person. Thank you Hulda R. Clark.

Cancer disappeared. doctors looked in vain for the cancer for a long time

Ronald P. Muka, Royal Oak, MI: My mother was diagnosed with breast cancer a few years ago. Being in her 80's she did not want to go through the pain and suffering of conventional treatments such as surgery and chemotherapy. Several of my friends, who had previously had cancer, recommended the cure in Hulda Regehr Clark's book, The Cure for all Cancers, because they had benefited from this cure. I convinced my mother to try the herbs. Although she never took the herbs for more than eight days at a time, the cancer disappeared. Her doctors looked in vain for the cancer for a long time. My mother had no other treatment for cancer than the herb treatment set out in the book. Thanks to Dr. Clark's cure, my mother is still alive and well.

Had colon cancer and Dr. Clark saved her life. husband's bladder cancer was gone

Harold & Maxine Brewer, Mossyrock, WA: Dr Clark saved my life. I had a colon cancer. The doctor wanted to take out a foot of my colon but a friend gave me Dr. Clark's information and I started on the parasite program. No surgery, and after examination no cancer was detected \_ after two to three years I still take the remedy. My husband, Harold also had bladder cancer and went on the parasite program and there was no longer any cancer. We would never stop this program.

Was HIV positive. Now, Miraculously, after one month all symptoms gone and leading normal life

T. Prabhakar, B. Tech., India, taruguprabhakar @ rediffmail.com: I came across an Indian version of Dr. Clark's book HIV/AIDS cure two months back. I am an Electronics engineer. I learned homeopathy and treat poor people free of cost. I am treating a lady of 40 years age with HIV as advised by Dr. Clark. The zipper parasite killing program, worm treatment and other advises are followed. The treatment is being given to the patient since one month. Previously the patient was with continuous fever and diarrhea, not able to walk. Allopathic treatment failed totally in her case. Miraculously, after starting Dr. Clark's treatment within a week her fever gone, diarrhea stopped. After a month she is leading a normal life. Previously she was not even able to walk but now she

runs and climbs the steps comfortably. She took back all the house work. Dr. Clark saved her and brought back happiness in their home.

HIV count dropped from over 750,000 to around 7,000 in about two months

(name withheld): How did my friend's seeming restoration of thymus gland occur? How did his incredible HIV count drop so fast? How has he managed to have sustained HIV count drop of over NINETY EIGHT PERCENT overall since his blood tests began over one year ago? How did he manage to have a near NINETY PERCENT drop in HIV count prior to taking any antiviral medication? I attribute those incredible things, the HIV drop, the probable restoration of his thymus gland, the apparent ongoing recovery of his autoimmune system, all to DR. HULDA REGHER CLARK'S PROTOCOL. I am SHOUTING for JOY! David, I was hoping you would provide a testimonial site at your website, so that I could tell the world of this recovery from advanced AIDS due to primarily to Dr. Clark's protocol. We also did all other excellent things to boost his immune system. His blood components which were "out\_of\_range," are now so close to being "normal" with continuing signs of improvements! Yet, some people do not want to know anything that goes against pharmaceutically\_oriented/controlled medicine. We told a friend who has AIDS for over twelve years, and told him of HIV non\_detectability and that his HIV count dropped from over 750,000 (probably was one million!) to around 7,000 in about two months. Our friend hardly uttered one word, though he seemed totally astonished.

Asthma entire life, now cured, off all drugs

TOVDIANE@aol.com: I consider myself to be blessed to have come upon Dr. Clark's book, The Cure For All Diseases. I am 56, had Asthma all my life, taken high doses of steroids for long periods of time, lost so much work time and all that. I got a zapper and did the parasite program, and now I do not use the Asthma inhalers hardly at all anymore. I was also able to get off anti\_depressants which I had been on for 10 years. I am no longer anxious and nervous all the time. I don't have panic attacks as I had for years. I sleep good at night. It is really a miracle to me. And more is that I know I am on the road to being a healthy person. I can look forward to not going to the doctor as often, and not taking prescription drugs.

Don't have that fear anymore of dying of AIDS. will be negative soon

Catherine, catlucent@aol.com: I am home after 6 week stay with the incredible Dr. Clark and her staff. I can see will be a great year. Everyday I am clearing up all this deadly matter in my body. Dr. Clark is a genius and never stops. Her energy, enthusiasm, love, and intelligence is amazing and contagious. She doesn't settle she will dig deep to find the problem for sure. The success of plate zapping is taking over. I am also using magnets daily. Colonies of parasites have been found and a lot in my brain. I am still waiting for blood test results to see the progress of the HIV status. After two weeks, the viral load went down from 25,000 to 16,000. This was done without meds folks! I don't know why anyone would want to put these deadly toxins from drugs in our bodies when we have so many to get rid of in the first place. It's because we are scared and don't know better. We don't want to die of AIDS. Well, I don't have that fear anymore. I think I will be negative soon. But, you must follow the protocol. The medication I had been taking for 2 years had dyes in them, so I had to get ones in Mexico. Why is the country killing us? I have too much dye. I really urge people with HIV to see Dr. Clark. How would you feel being free of a killer disease without the harm of side effects and toxins of meds, and clearing up any other ailments? But, it's not our fault. Benzene is all around us, PCB's are killing us and I am so scared of how many sick people there will be in the years to come. We have to work together somehow and wake up this

country. Europe and even Mexico won't allow things like genetically altered items and deadly dyes in our meds and foods in their country.

Dr. Clark's book and protocol IS A MUST FOR ANYONE WITH AIDS or HIV

WASKOI@cs.com: Dr. Hulda Clark's protocol to eliminate HIV via restoration of the thymus gland, restore the immune system and stop AIDS. If you know anyone suffering from the ravages of HIV immune dysfunctions or AIDS or advanced AIDS condition, you will want to give them the gift of life via Dr. Clark's protocol described in her book. THIS IS A MUST READ FOR ANYONE WITH AIDS or HIV. Dr. Clark's sci\_research revealed that fasciolopsis buskii (human intestinal fluke) and benzene is always causing obstruction in the thymus gland \_\_ and that the remedy to cleanse the thymus can be quickly created by following Dr. Clark's Protocol, easy to do and easy to obtain. The quick results of greatly reducing HIV counts after this protocol will reveal the truth about how the thymus gland can be REACTIVATED! The thymus will begin replication after it is cleansed. You will be amazed at how quickly the immune system responds. You will want to purchase ALL of Dr. Clark's books and learn how to prevent and remove cancerous conditions and stop HIV replications! This is an established fact and hope my review is allowable for the reading public and all who may suffer from AIDS and HIV.

Terminal prostate cancer, PSA was 85, now 3.4 and certified CANCER FREE by doctor

Shirley K. Barnes, shirleybarnes@yahoo.com: Is this America? How can uninformed lawmakers dare to take away our freedom to select an EFFECTIVE, uninvasive means of dealing with critical health problems. I was a party to the cure of my neighbor, Henry LeGuyder, of terminal prostate cancer. Under my guidance, he followed Dr. Hulda Clark's recommendations, and is now CANCER FREE \_\_ certified by his doctor. His PSA, which was 85, is now 3.4, normal. His doctor, who had pronounced him terminal and said there was nothing more he could do for Henry, now says he has no cancer. Henry did nothing other than follow Dr. Clark's' recommendations (zapping, detoxifying, and herbs), taking vitamins and improving his diet. They are still thanking me for giving them the information that cured him. I am attaching his write\_up of the incredible journey he made back to health with the help of Dr. Clark's book. Our world is blessed to have her offer us a cheap, effective means of curing illness.

Rare cancer, tumor in small bowel and part of liver. now Catscan and other tests results were GREAT

T. Miller, TEMY, Stargate@aol.com: During surgery they discovered a parsanoid tumor in the small bowel and part of my liver. They removed all that they could see, and had it tested. My oncologist said this is a rare cancer form and grows very slowly and we should wait and test every 3 months before starting any kind of treatment. I refused and did my own investigation and came across Dr. Clark's A Cure For All Cancers book. I started her program. I went for a Catscan and some other test and the results were GREAT. The only thing showing a little high was my urine test. I've been passing along all information to other people who have contacted me thru a carcanoid group that I am in. Tell Dr. Clark THANKS, and not to give in to the all powerful ACS, FDA, AMA, NCI. Thanks a million.

Thanks to Dr. Clark and Renee Caisse (Essiac) I am cancer free

Felice D. Swalla: I met with some of Dr. Clark's patients and was so moved and impressed that I introduced her work to the Lake Charles, LA area by way of two\_day seminars. They were a great

success and helped many people. Since then I have become an herbalist and am working on a Ph.D. and ND. So inadvertently, Dr. Clark changed my life. In March I was diagnosed with cancer. Thanks to Dr. Clark and Renee Caisse (Essiac) I am cancer free and no radiation. I continue to help people and planning to do another seminar featuring Dr. Clark's books.

Father-in-law CURED TERMINAL PROSTATE CANCER in 20 days, friend CURED TERMINAL BRAIN CANCER in 30 days

Shirley Gillett: Cancer cure. For anyone who has cancer of any type, please go to this page for help <http://www.drclark.net>. I know positively that Dr. Clark's formula works. My father\_in\_law was CURED of TERMINAL PROSTATE CANCER in 20 days. A 28 year old friend was CURED of TERMINAL BRAIN CANCER in less than 30 days. You must take the right herbs and you must take them right in order.

Tumors in uterus and brain gone, large cavitation in tooth healed. It's a miracle, said dentist

Eva Bladh, Rurik Bladh, rurik.bladh@swipnet: My tumors in the uterus and little brain had gone and also the cavitation in the tooth was healed. "It's a miracle" said the dentist. Such big cavitation on two centimeter can't heal that quickly. But it has. Even though there is no bone produced yet it's on its way. I do not even have to drill out anything infected and I will leave it with the cut without putting in any antibiotics. I was very happy, since he told me before he might drill out the infected cavitation 20\_25 times. That's normally what he has done to others, and mine was the biggest he ever seen. My husband had healed his malignant cancer in the liver and the lungs, but now she could see there were some in the colon and prostate, and therefore we will need some more..

Dr., Clark obliterates modern medical "science" as we know it. I HAD LIVER CANCER AND CURED MYSELF

Bozeman, MT: I have so much to say about Dr. Clark's book. To sum up the best part \_\_ it saved my life (at 20!). It is about survival in a mixed\_up, fabricated world. It points out poisons that are obvious, but considered the norm. It is about purity and how to strive to stay healthy, really healthy. How to get rid of your kidney stones and gallstones with recipes instead of surgery. I had liver cancer and cured myself after a long, drawn out experience with MD's. This is for people who are willing to change their life for the better and go all the way to health.

Prostate cancer doing much better

Natalia Winn: Dr. Clark, my father, 70 years, was diagnosed with prostate cancer in Jan. '99. I told him about your therapy and gave him your book. Luckily my father is health conscious and decided to give it a try. It is now several months later and he's doing much better.

Colon cancer, doctors said only a few months. After Clark therapy Surviving two years later

Helen F. Gallagher: Several years ago my mother was operated on for colon cancer. The doctors had to remove everything, the cancer had spread so badly. She had to undergo radiation and chemo for over a year. She was very ill. For almost two years she seemed to be a little better. The cancer

came back, and there was nothing they could do. They told me she had only a few months left. We put her on Dr. Clark's herbal remedy and she has survived for over two years after they gave her only a few months. I only wish we knew about this before she was operated on and the cancer spread so drastically.

Dr. Clark's Research Assoc., Switzerland

David P. Amreim, Switzerland, President, Dr. Clark's Research Assoc.: Dr. Clark has long since solved the malignancy riddle and easily stops cancer. Her current work is how to facilitate shrinking tumors and strengthen patient's immunity. She sees only terminal patients given up by their doctors and it is literally amazing.

In 1996, David asked Dr. Clark how could he know her therapy was true. Her answer: "Talk to my patients." David visited her clinic.

A prostate cancer patient's PSA dropped from 8 to 3.8.

Another told of the amazement of his doctor as he was cancer free.

Another described a liver cleanse eliminating hundreds of gallstones.

A woman from Finland whose face was deformed by cancer said her growths were shrinking and her pain gone.

A man with Parkinson's disease, to the amazement of everyone, was no longer shaking. David's further investigation convinced him of Dr. Clark's truths and he founded the Dr. Clark Research Assoc.

David Amreim: "For the past year I have worked closely with therapists using Dr. Clark's therapy and hear of results almost daily. Here are just a few of the most recent.

A friend was HIV positive, and after the Clark therapy was retested HIV negative. Her doctor, in disbelief, said something must be wrong with the test because it just can't be.

Fred Vogeli, therapist, Switzerland, did the Clark therapy with a leukemia patient given one week. Months later, she is home and well.

A boy with diabetes since he was four, after only 10 days on the Clark therapy, had normal blood sugar for the first time in years.

Uschi Ausfelder, therapist, Germany, had a patient with a large cancerous lung tumor who was scheduled for surgery to remove the lung. After 10 days on the Clark therapy, all symptoms were gone and surgery was cancelled.

A therapist in Munich had another HIV positive case turn HIV negative on the Clark therapy. He does not want it promoted as he fears being harassed by the establishment.

Yet, it has become an open secret among therapists that it is possible to become HIV negative with the Clark therapy.

A woman wrote about her mother who no longer has diabetes.

Two people attended a lecture I gave, one with prostate cancer, the other with diabetes, and both were cured by the Clark therapy.

Alan Baklayan, therapist, Munich, treated a boy with diabetes taking 30 units of insulin a day. After two months on the Clark therapy, he is down to 2 units.

Dr. Clark has long since solved the malignancy riddle and easily stops cancer. Her current work is how to facilitate shrinking tumors and strengthen the patient's immunity. She sees only terminal patients given up by their doctors and is doing an amazing job."

Without Dr. Clark's therapy for my cancer there was no other hope for me

Margit Rademann, Germany: I am thankful to Dr. Clark for the great contribution she made in the fight against cancer and chronic diseases. There was no other hope for me. I request Dr. Clark's immediate release so she can continue her valuable work in the service of mankind.

I know Dr. Clark has helped untold numbers whose lives threatened by cancer

Paul Rekstad, CO: I know Dr. Clark has helped untold numbers of people whose lives have been threatened by cancer. Prosecuting her for saving lives and providing humankind with a safe, non\_invasive treatment for one of mankind's worst diseases is, in my judgement, intolerable.

Dr. Clark helped countless cancer patients written off as hopeless by physicians.

Lois Rekstad, WI.: It is essential to keep treatment options open and not be held hostage by the traditional, drug oriented medicine with more than its share of fraud, imperfection and incompetence. Dr. Clark is a Humanitarian in every sense of the meaning. Paul &

Dr. Clark's therapy cured AIDS positive man

Orlando Mijares, Mexico: I can tell you that one of our cases agreed to go public with his testimonial. He was a bank executive and was fired due to the fact that his test came out positive for AIDS. Thanks to Dr. Clark's formulas this man is completely healthy now. And he was cured in less than 9 months.

We in Mexico have helped Several People to be Cured from AIDS with Clark therapy

Joaquin Senderos: My name is Joaquin Senderos and I am a partner of Orlando Mijares. We in Mexico have helped several people get cured from AIDS with Dr. Clark's book, zapper and recommendations. We pray to God that this injustice be reversed promptly so we can count on her freedom to help people.

Ovarian cancer, doctors said nothing could be done to prevent getting cancer again. Now enjoying good health

This is to all those who are interested in how I am able to enjoy such good health at 65 years! I zap! And give credit to my parents for good genes and to Dr. Clark's book The Cure for all Diseases.

Three years ago my daughter introduced us to Dr. Clark's book. After surviving ovarian cancer, her doctors told her there was nothing she could do to prevent getting cancer again. She made a decision and took full responsibility for her health. Her research led her to Dr. Clark's book and Zapper. Witnessing the change in her physically and her bounteous enthusiasm we all got the book and experimented.

Doctor says: suppression of life saving information that Dr. Clark shares is an abomination to our constitution and God

Dr. Roberta Linton: The suppression of the life saving information that Dr. Clark shares with the public is an abomination to our constitution and our God. I watched my mother die from the Medical Professions treatment of cancer and the more damage it does to the human body until it finally kills you. My husband was diagnosed with cancer and decided to go the natural way and is still alive today. Dr. Clark's information allows the human body to build its natural immune system so the body can fight the disease, not tear the body's immune system so the disease can take over the body as does the medical way of "treating" Cancer.

After Clark therapy breast lump disappeared and clear of cancer. nurses amazed and couldn't believe it

Dee Suiter: I am 78, had breast cancer surgery that left me with an ugly hole. The surgeon recommended removing my breast. I heard about Dr. Clark and decided to try. Soon my incision began to heal, my lump was softer, and each day I improved so much the nurses were amazed and couldn't believe it. 'This is not supposed to happen but whatever you are doing keep it up!' Within 10 weeks my incision had completely healed, my breast lump had disappeared. I am clear of cancer, have my breast and feel great.

Our company hears from people throughout the world that Dr. Clark's therapy has eradicated their cancer, HIV and other diseases.

Clearwater Herbs: Our company began with the prime purpose of supplying pure products according to Hulda Clark. We hear all sorts of good stories all the time from all over the world that Dr. Clark's therapy worked. Dr. Clark has a track record of eradicating cancer, HIV and other serious diseases.

After Clark therapy no sign of throat cancer or bone marrow cancer. doctors wanted to know what she had done.

Arden McConnell: A classmate couldn't attend our reunion because she had throat cancer. I suggested Dr. Clark's book to her. The next year, she said her doctors wanted to know what she had done for herself since she had no sign of throat cancer or bone marrow cancer (she hadn't told us about that). I asked if she was still taking the herbs. "I'm afraid to get off of them," she replied, "I'll stay on them forever to keep well" She thanked me for saving her life by telling her about Dr. Clark's book.

Had cancer five years ago, refused surgery, followed Dr. Clark and now alive and well

Mary Sue Richardson: Five years ago I was diagnosed with cancer and advised I needed radical surgery to save my life. I followed Hulda Clark's book and credit this to beginning my journey back to good health. I never had surgery, am alive, well, and happier than I've ever been.

Prostate cancer, after Clark therapy PSA went from 11.3 to 0.1

Jack D. Woods: Diagnosed with prostate cancer; PSA at 11.3. After the Clark therapy his PSA was 0.1. "I am very thankful to Dr. Clark for being cured of cancer."

Cancer, There was no other hope for me than Dr. Clark

Margit Rademann Germany: I am thankful for the great contribution Dr. Clark made in the fight against cancer and chronic diseases. There was no other hope for me. I request therefore Dr. Clark's immediate release so she can continue her valuable work in the service of mankind.

Healed of inoperable cancer tumors, healed from Multiple Myeloma

Elizabeth Gregory: A friend told me of the success of her nephew being healed of inoperable cancer tumors using the Clark herbs and Zapper. I feel her program, enhanced by other modalities, have gotten me 95% healed from Multiple Myeloma.

Dr. Clark Clinic in England: outstanding results with serious or terminal cancer patients

Christine Doyle, Clinical nutritionist, UK: "Dr. Clark, I want to update you on the progress we have made. The Bristol Cancer Center, a very prestigious organization, asked if they could test the effectiveness of your therapy by sending four cancer patients, all very serious, and one terminal cancer with only one month to live. The results have been astounding. They have done so well the Bristol Center asked if they can send more patients. My own patients are doing extremely well. My pride and joy is a lady in her sixties with pancreatic cancer, originally given only a few months to live, but one year later appears to be very healthy. So many people pass on their thanks. We constantly marvel at what we learn from your research."

A woman with acute leukemia was given one week to live. Christine Doyle was asked to administer the Clark therapy. Her doctors were stunned as she did more than survive, but nine months later is alive, perfectly well, with normal blood tests.

Completely Cured of lung cancer after Clark therapy, and friend Cured of breast cancer

Paul Smith: I am a success story of Dr. Clark. When I came to Austria to marry I was loaded with lung cancer. Now that I have killed the ascaridines I am completely free of cancer. A naturopathic practitioner in Vienna used the probe and kinesiology testing to isolate the cause and we used a commercial mixture of the recommended Clark herbs to cure my cancer in 7 days. My wife has a dear friend who is an operatic soprano in Vienna who was cured of breast cancer by the same practitioner.

Doctor from Ecuador: Boy with Ewing's sarcoma and tumors offered no hope. 24 hours on Clark protocol, off morphine, off pain killers, in two weeks back to normal activities

R. B., DO, Quito, Ecuador: "I came to Ecuador, where there is freedom to treat as you see fit. One amazing case is a five\_year\_old boy with Ewing's sarcoma with tumors in his armpit and chest wall. He was operated on and given maximum doses of chemo and radiation. Finally, he was sent back to Ecuador to die. He arrived in my office with a catheter in one of the veins of his heart, where his mother injected morphine for his intense pain. I started him on the herbal therapy of Dr.

Hulda Clark. It is hard to believe, but he was off morphine and oral pain killers within 24 hours. His appetite returned, and within two weeks he returned to normal activities. His tumors are regressing and blood levels returned to normal. Saving one life was worth the misery I endured."

Would not BE alive today if not for dr. clark. witnessed cancer patients get better just by following Dr. Clark's therapy

John Doyle, England: Dr. Clark, 71, is a prospective Nobel Prize winner for her humanitarian work, especially for cancer victims and AIDS patients. She has world renown fame, in fact, here in the UK I have many testimonials to her therapies effectiveness. I have personally witnessed cancer patients get better just by following information freely given in her books. Many people here in the UK have benefited from her therapy. Dr. Clark's book showed me the way to restore my health and that is what happened. Many victims have said that to me that orthodox treatment for cancer is worse than the disease itself.

Bone cancer, Clark therapy Dramatically helped 86 year old. Breast cancer, doctors wanted to know what was done to speed up recovery

Amy Dahlquist MN: We have lost much faith in the present medical profession and suspect insurance and pharmaceuticals of corruption and exploitation of the lowest caliber making enormous profits off the sick and helpless. The herbal formula by Dr. Clark dramatically helped my 86 year old mother who had bone cancer. It was so dramatic, the hospice people said we won't be having any need for them and wanted to know what I was giving my mother who had greatly improved right before their eyes. I am eternally grateful. A young friend was stricken with breast cancer. She chose both the "traditional chemo and radiation" along with Dr. Clark's formula. Her quick recovery was astounding to her physicians. They wanted to know what she had done on her own to speed up such a recovery.

The only reason there is not a universal cure for cancer today is because too many people are making too much money on the conventional, ineffective methods used by the hospitals and doctors including radiation and chemotherapy.

It's a sad day when you have to leave "the land of the free" if you want to live

I am sick and tired of orthodoxy, quackbusters and the like "protecting" us with their medical terrorism. The Medical Mafia and their thugs (obvious puppets of the AMA, FDA, EIS, CDC and the like) who are no more than the whores of the Pharmaceutical Industry make me sick. It's a sad day for medicine when you have to leave "the land of the free" if you want to live. James Scott

Declined chemo, radiation, surgery. followed Dr. Clark's book. In 3 months PSA went from 24 to zero. oncologist amazed

Robert Neyman CA: I am 84 years old and am in good health. About two years ago my doctor informed me that my PSA reading was at 24 and climbing. He told me that I must go to see an oncologist, which I did. The oncologist told me that I undoubtedly had contracted cancer and had three choices: chemotherapy, radiation treatment, or surgery. Having heard of Hulda Clark, I declined all of these choices and bought her book instead, and followed the instructions in this book rigorously. Within three months my PSA reading had been reduced to zero and I have had no further problems. My oncologist was amazed.

Dr. Clark's method WORKS. No longer scared to death of getting cancer

Mary Jo Holman Garascia, Co: Dr. Clark uses natural methods, with no drugs or harsh chemicals and I can say that, for me, her method WORKS! Thanks to her research and methods, I am no longer scared to death of contracting cancer and I have a much better understanding of my own body's workings, and what healing really means. I should think those who call themselves healers would be willing to find out exactly what Dr. Clark is doing and assist her research, rather than arrest her on trumped\_up charges. If the aim of the AMA is to help and heal suffering humanity, they would do well to aid people like Dr. Clark, who qualify as do few others to wear the name of healer. Whoever is behind this travesty should be ashamed.

Two weeks after Clark parasite program malignant melanoma on leg cured. declined surgery

Five years ago a brown spot appeared on my leg. It then grew larger and later had some red in it. The doctor took a biopsy, told me it was malignant melanoma, and said "if you don't have it cut out right away, you will lose your leg or your life." For one year I didn't do anything, and it did get worse. I read Dr. Clark's The Cure for All Cancers. Immediately I made all the changes suggested. Within two weeks after starting the parasite program the red spot on my leg was gone. It had been there for a year and a half. And the brown has been gradually fading.

Given 5% chance to live. wouldn't be alive without Dr. Clark's books, her bible

D.P. Wright: I wouldn't still live without Dr. Clark's books. They are my 'bible.' I'm an advanced case; had a 5% chance to live, but today I have a real chance to become well. I want to give the knowledge to other ill people. Everything Dr. Clark writes is 100% in accordance with the real illness. If you are interested in a unique story to become healthy and if it helps you, I give you my story. Very unique and a testimony that Dr. Clark's work has saved my life and can save the life of many ill.

After 3 weeks breast lump disappeared with Clark protocol

Michele Timmermans, New Zealand: Thanks to Dr. Clark, I also got rid of a nonmalignant breast lump. After reading in her book that those lumps are often due to toxic metal deposits and often turn into a cancerous tumor at a later stage, I decided to take some chelating amino acids (one pill of L\_cysteine and one pill of L\_histine everyday). After 3 weeks, as I had to visit my doctor, I checked myself, and couldn't detect anything. My doctor checked also\_twice, and to her great surprise, that lump had disappeared. This after only three weeks. We have not had major health problems otherwise, but I am very grateful to Dr. Clark. I do not have to suffer from colds or flus anymore, and unlike many people, I know I do not have to live in fear of cancer or diseases. I have also seen many people getting much better by just doing her parasite treatment and following her guidelines. Dr. Clark should be honored and praised for what she has done for humankind.

Witnessed cancer victims given up as hopeless at Dr. Clark's clinic. Now many alive and healing

Jalien Shandler: I have been suffering for years from mercury and pesticide poisoning. Dr. Clark's research and procedures have saved my life. I have been practicing them for years and feel better and better. Heavy metal poisoning is not something one recovers from overnight. It takes years and years, and it is the methods of Dr. Clark that have allowed me to make continued positive progress. I had no where else to turn. Physicians have not yet made the connection between mercury in the teeth and the symptoms it causes in the body, even though many countries in the world are now

outlawing mercury filings. The people I saw who had gone to her clinic were primarily skeletons with no hair, turned away as being hopeless by the medical profession, after chemotherapy and radiation. Maybe not all of them made it; but I personally know of many who are still alive and healing.

After diagnosed with cutaneous T\_cell Lymphoma owes life to clark therapy, expects normal life expectancy

Carole Terry: I was diagnosed with cutaneous T Cell Lymphoma. I could live another 5 years. Five months of chemo ensued. Unfortunately in mid April, the lymphoma returned. Aug. 9, I saw my oncologist and after several blood and kidney tests, was told I did not need to see him again. I could expect to live a 'normal life expectancy.' I was fine! Many of us take the cleanse and are doing well, have refused all conventional chemo and radiation. I think I owe my life to Hulda Clark's parasite cleanse.

Stomach cancer gone after few weeks. doctors amazed. cervical cancer for years now gone and tumor shrunk

J. Yvon: My father developed stomach cancer. I followed Dr. Clark's program and just a couple weeks later the cancer was gone. The doctors were amazed! I also know a lady who had developed cervical cancer and had it for years. I told her to try Dr. Clark's method and see what would happen. A few weeks later the cancer was no longer there and the tumor also shrunk.

Dr. Clark Saved life. malignant thyroid cancer disappeared

I'm writing this to verify that Dr. Clark saved my life. I came to her for help in Dec.1997, after suffering from malignant thyroid cancer. The cancer was returning, and my system was weak from years of antibiotics. Not only did Dr. Clark and her methods cause my cancerous condition to disappear, it also has never returned. I follow Dr. Clark's program to the letter and am in better health now than I've ever been at anytime in my life. Dr. Clark is badly needed by thousands, her methods are safe and natural. She saved my life, and has saved many others.

Still alive after having AIDS

Mark Embler: I have AIDS and without alternative medicines I would long since be dead. I was told that I would be dead in 6 months in 1991, but through non conventional treatments I am still alive after eleven pneumonia.

Dr. Clark is reason I am alive and doing well after Breast cancer

Am very happy to have this opportunity to write, and to let you know that your book A Cure For All Cancers, is the reason I am alive and doing well today. Ran into that book quite by accident, just after having been informed that I, in fact had breast cancer, and decided to give it a try, since I had absolutely nothing to lose! Not only did I see the parasites on the fifth day of treatment\_\_\_what a sensation it was to feel the critters writhing around in protest!\_\_\_but I also had about 30 years worth of gall stones to get out. I had, for years, been seeking a way to do that, being totally frustrated with the medical establishment informing me the only treatment was removal of my gall bladder. Cannot tell you how happy I was to actually meet those stones after so many years. And, after a year and a half of periodic cleansing, my chronic shoulder/arm aching left.

German doctor: Dr. Clark solves the most threatening disease of mankind, cancer

Wolfgang Roesner, M.D. Germany: Hulda Clark leads a clinic in Mexico helping people with chronic diseases of different kinds by application of innovative methods. Her success witnessed by many people indicate that she is doing important work for the whole mankind in her clinic. She seems to be on the way to solving one of the most threatening diseases of man, cancer.

Cancer shrunk to almost nothing

Paul Bilcliffe: In an attempt to save my 25 year old daughters life, she is presently on the parasite cleansing program after 7 week radiation treatment. She was also being treated by a frequency generator after the machine built by R. Rife. The cancer has shrunk to almost nothing and we are awaiting final clearance from the oncologist. Our daughter is becoming her old self again and will be continuing with the various cleanses recommended in Dr. Clark's book. I often wonder what would happen if a loved one of so called bureaucrats was diagnosed with a terminal illness. Which route would they take if they see the kind of pain and suffering a loved one endures.

People actually heal their own cancer and other diseases using Dr. Clark's method

Jamie Larson: The only reason the government has gone after Dr. Clark is because her experiments and methods actually work. People actually heal their own cancer and other diseases using her methods. Poor government, one more person survives cancer and the government, insurance, pharmaceutical and doctor industry do not get the money from it. I am so disillusioned right now. I know this works and have repeatedly used the Zapper I built myself. We have no terrible diseases, we just keep the regular colds and flue and childhood stuff taken care of. My husband has had great results using the Zapper for gum disease and problems.

Two friends got cured from cancer with Dr. Clark's protocol

Claudio Paccoret: I have used Dr. Clark's books to help me and my family with tremendous results. I didn't know anything about toxic dentistry, parasites, and many poisons in my home environment. After having mercury removed, and cleaning our home, as well as zapping parasites, we are all in much better health than ever. I had several hospitalizations over the years (can be verified with hospital records). The doctors couldn't find out what was wrong. After using Dr. Clark's plan, I am completely well and have not had any hospitalizations. I pass it along to everybody I know. I have two friends that got cured from cancer thanks to Dr. Clark's treatment.

Black melanoma spread to the lymph nodes. Without Dr. Clark would never have made it. now cured and trains therapists in Clark method

Dagmar Ward's: history of cancer dates back 10 years, black melanoma, which spread to the lymph nodes. She rejected chemo, though given only 3 months to live. Dr. Clark's therapy saved her life and she made a commitment to work with cancer patients in Germany. "I am a therapist and for two years now I have practiced as a research consultant for degenerative diseases according to Dr. Clark. I have gained much experience and knowledge, mostly through my own healing process of a very serious cancer and consult with hundreds of patients with cancer, HIV and other diseases. I train medical and naturopathic doctors in Dr. Clark's techniques. I am extremely grateful to Dr. Clark, without whom I'd never have made it."

Daughter Miraculously healed of maladies by following Dr. Clark's cleanses after giving up on doctors

Janet & Ken Goodrich: Our daughter was miraculously healed of her maladies, many severe, simply by following Dr. Clark's cleanses. She was only 29 years and had given up on getting help from the medical community. If it weren't for Dr. Clark, our daughter would not be such a productive member of society. In fact, she would probably be a burden on society because she would eventually have filed for disability. Today she is a professional who will continue to contribute much to society for many years to come \_\_ thanks to Dr. Clark's programs.

We in Sweden suggest Dr. Clark be awarded the Nobel Prize for identifying causes and cures of disease

Bertil Wosk, Patrik Bladh, Petter Bladh: We are many people here in Sweden that have taken part of Dr. Hulda Clark's research in medicine. Dr. Clark is a true pioneer in the field of medicine. In her research she has both identified many causes for diseases as well as their cures. We have suggested that she be awarded the Nobel Prize here in Sweden for her pioneering work.

Shrunk tumor in ovary completely with clark therapy. doctors only offered surgery

Gloria A. Hajek, Orlando, FL: This is in regard to my experience with Dr. Clark's Therapy sixteen months ago. A tumor was found on my left ovary. My doctor wanted to operate and as he stated, "remove everything." Removing everything seemed out of the question to me. I received two other opinions from conventional doctors and they suggested the same thing. None could tell me why I had developed the tumor, they just wanted to operate. None could assure me that I wouldn't develop another tumor. I started following Dr. Clark's therapy less than a year ago and have shrunk my tumor completely. I am in the best of health and feel wonderful everyday. There is an alternative to surgery and thank goodness that we have a choice, and thank God for Dr. Clark and her dedication towards helping others help themselves. There is an alternative and Dr.Clark's methods work.

Bladder cancer total recovery in two months. now three years later.

Kahanah Farnsworth: The parasite program combined with supervised use of the Zapper saved my friend Wilfred Sealdwell's life. Three years ago doctors found cancer in his bladder and he utilized Dr Clark's methods. Wilfred took the herbs, zapped regularly and experienced a total recovery in about two months time.

Breast cancer and skin cancer cured with clark therapy

Terrie L. Porras, Alternative Health Associates, TX: I am an ND, Master Herbalist and Iridologist. I have been doing parasite testing and treatment for two years now with phenomenal results. I keep A Cure for All Cancers and Diseases in stock for my patients. I had Uterine cancer at 23 and not knowing any better, had a complete hysterectomy. I started learning about natural health at 33 and have never looked back. I am now going on 43. Two years ago I had skin cancer on my head. I treated it with the parasite regimen as well as 35% hydrogen peroxide. Cancer gone in about 6\_8 weeks. I was then diagnosed with a cancerous tumor in the breast. Now it was time to see how I would react. Would I do what I've encouraged my patients to do or would I go the medical route? Well, I definitely knew I did not want chemo or radiation, but didn't want to wait a long time and have it metastasize. I got back on the parasite herbs, black walnut, cloves, wormwood, made sure the bowel was open, took pycnogenol and Essiac Tea. I also took Shark Cartilage and Una De

Gato. I used the Zapper almost every day. I just wasn't sure how I could keep seeing patients with this "thing" growing out of my chest. I was rechecked in 5 months and it was gone. I even went to a Chinese Doctor that does Thermography which will detect the slightest amount of cancer cells. She found none. Thank you for all you do to help people and save lives.

Cancerous tumors all disappeared, organs healed on Clark therapy

Martha S: I was suffering with several cancerous tumors, one behind the eye, one under my armpit (large), and in the liver (size of a cantaloupe). I was suffering from loss of blood. All my organs were in a bad way. I was scheduled for surgery. I began the Clark parasite cleanse. My organs healed up, the swelling and oversize has shrunk, and the tumors have all disappeared except one small one still in my groin. I am 5'8", over 200 lbs. Now all that fat and fluid is gone. I am back to work. Dr. Clark is an angel. My husband and I regard it our mission in life to let everyone know about this remedy. We distribute her books in volume (several cases to date). My doctors explain this as a spontaneous remission.

cancer survivor after oncologist said nothing could be done to prevent cancer from taking life

Donna Davidson, Eden Prairie, MN: Without a doubt Dr. Clark has found that disease, in whatever degree, is something that we can learn about and have a hand in our own cure. I am a cancer survivor. After two surgeries and chemo my oncologist told me there was not a thing that I could do to prevent cancer from taking my life and that I would die of cancer sooner or later. I stumbled across Hulda Clark's book and something in it made me feel as though I could have a fighting chance. I began to learn and soon felt so much better. Things that did not have anything to do with cancer, (keeping the cancer at bay will be a bonus) have spent years now not getting the flu, colds, having clear skin, not having back pain and healing (cuts) so fast and not getting infections in those cuts. Every day things that all people contend with. The fear of dying, of not being around to see my son grow up drove me to look for other avenues. Refusing to give up, looking for answers and being willing to look for anything to prolong my life was worth looking into. The conventional ideas of chemotherapy is new, less than 25 years ago it was experimental. The idea of filling your body with poison to kill off the disease is quite bizarre if you look at it, and it makes you so sick. Put in the time as we have done in taking hold and responsibility of our own health and you will find the truth about Hulda Clark.

Doctors said 6 months with advanced metastatic prostate cancer. With Clark therapy alive five years later

Wayne and Zondra Myers, IN: Dr. Clark, a friend used your herbs following diagnosis of advanced metastatic prostate cancer. It has been well over 5 years ago. He did have a bilateral orchectomy. He did not take chemo. His markers were down so low at one point that the doctor told him to keep doing what ever it was that he was doing. At the time of diagnosis he was given less than 6 months to live. He has worked and been productive during this time. His health has not been perfect but certainly better than what his medical doctor predicted.

Prostate tumor gone, cancer that had spread all over in remission. doctor cancelled chemo for woman with leukemia

Bruce D. Howell, Ritzville, WA: I was diagnosed with a tumor in my prostate. I was in remission, but still had the tumor. I saw Dr. Clark and followed her directions at home and within a couple of months was rid of the tumor. That was six years ago. Of additional interest is a woman who had

cancer in more than one area and was given six months to live. She was taking chemo once a week and started Dr. Clark's procedure and was pronounced to be in remission within a couple of months. The last situation is an older woman I know who had leukemia and was to start chemo in Nov. 1999. She started Dr. Clark's program a few weeks in advance. Instead of starting chemo, the physician told her to continue what she was doing and come for her next checkup in March.

Cured herpes and friend cured breast CANCER using Clark method

I have personally been cured of herpes by using Dr. Clark's methods. Her methods are beyond doubt extremely reliable and an effective cure for all types of ailments. A friend of mine had breast cancer, see enclosed letter, and she followed Dr. Clark's methods in her book Cure for All Cancers and was CURED. It is beyond my understanding that educated people can give in to pressures from "modern" medicine and pharmaceutical interest groups and hinder her research, let alone arrest this greatest researcher of our times.

Dr. Clark has taken a huge weight off human race by removing scare of cancer, HIV, other "incurables"

Patti Caron, Clearwater FL: My grandmother died of breast cancer, my great aunt survived breast cancer. This should be reason to be overly concerned that I may contract it as well, but it's not. Why? Because I have read enough of Dr. Clark's works to be aware. Dr. Clark has taken the scare out of cancer, HIV and other "incurables." In doing that alone, she has taken a huge weight off the human race. In placing into the hands of common man the cures for these diseases, she has made us, as a group, just that much stronger and self\_determined. I understand this scares some. That's too bad, being as they have bodies, too, might one day contract the disease they are funded to perpetuate, and could be in dire need of Dr. Clark's help. My earnest thanks to this very special human being.

Met many people at Dr. Clark's clinic given death sentence by medical profession that were becoming well

Julie Gardner: For years my health had declined until at age 47 I was so weak and ill that I trembled as I moved through each day, so totally exhausted that I could hardly function. As I made the rounds of physicians and specialists, submitting to countless tests, not one doctor could tell me anything. "We can't find anything wrong with you." The light began to dawn that medical science had many gaps in it, many holes in the trainings of its doctors. I heard about Dr. Clark. Slowly I began to change my eating habits, killing parasites and had all my mercury fillings and root canals taken out. I proceeded to clear out many toxic products, eat more organic, whole, unprocessed foods. Four and a half years later I am stronger than I've ever been, full of energy, no longer suffering from anxiety, and life is so good because of the things I learned from her and other alternative practitioners. I even flew to Mexico and visited her, and I met many people who were given a death sentence by the medical profession, yet were becoming well by following her practices. When medical science FINALLY starts to listen and adopt some of these marvelous, simple principles of natural healing that we'll all stand aghast as we survey the years of narrow\_mindedness and greed which drove the "establishment" to hound and persecute good, sound skilled people on the cutting edge of some of the greatest breakthroughs in the healing of the human body. Can this really be happening in American?

In a health food store, I see a book, "The Cure For All Cancers." I start taking the wormwood, cloves, black walnut and used the Zapper. I did the 14 day program. I take another PSA in the end of October and it's 15.8.

AS A RESULT OF DR. CLARK'S PROGRAM, SIX MONTHS AGO I HAD A PSA OF 0.2, AND A CEA TEST RESULT OF 2.0. ONE MONTH AGO MY PSA WAS 0.1 AND MY CEA WAS 2.3. I DO NOT FEEL THAT I WILL DIE OF CANCER, NEXT YEAR OR SEVERAL YEARS OR EVER.

I am now more concerned about being in a car accident, then I am about dying of cancer. I still maintain the weekly maintenance treatment. I am a firm believer in all of Dr. Clark's suggestions and treatments. It is a travesty to accuse her treatments of anything other than a benefit to cure cancer and other diseases caused by parasites, toxins and pollutants.

The AMA and the drug manufacturers are so fearful, that some day, the public will see that there is a CURE for cancer and other diseases, and that they can't make a buck off of us anymore. God forbid that the people become educated and think for themselves. Besides where will all of the research grant money, that's been flushed down to tubes for all these years, go now?

How would the AMA, FDA, and DRUG companies be able to buy new cars, boats, airplanes, and what would we do with all hospitals, clinics, funeral homes?

Just think of the economic impact on the health industry? How would we survive the influx of all doctors and government employees of the FDA and AMA in the unemployment line. God help us! Let's not only burn Dr. Clark, but all of her books and all of the other free thinking people and their books too. We can't let the medical profession search for anything new to work on, they have spent so much of our money, and surely need more, everyday they ask for more. So Burn baby Burn, the AMA is GOD! I can give you more names of people that alternative medicine, like Dr. Clark's has CURED, NOT TREATED. So PLEASE in the NAME of GOD, fight the AMA, FDA, DRUG companies and our OWN GOVERNMENT (that is supposed to be looking out for the people instead of the interest groups, but the DOLLAR is powerful). God bless all who will listen!

Cervical cancer, refused hysterectomy, after Dr. Clark's therapy had a clear pap smear

huntington@worldnet: I have seen this work! My mother was diagnosed with cervical cancer. The doctors wanted to perform a hysterectomy but she refused and followed recommendations in Dr. Clark's book. Six months later she had a clear pap smear. It is important to know that the program requires a dramatic life\_style change. If I were to have a cancer, I'd follow this before I would let anyone start lopping off body parts or further poisoning me with radiation or chemotherapy.

Inflammatory breast cancer. After surgery, no dead tumor cells found. doctor said it did not follow any logic and didn't know what to make of it

rogersayub@aol.com: I am writing for a friend who told me: I was diagnosed with inflammatory breast cancer with not too much hope. After my first chemo I followed Dr. Clark's advice, and really felt that it worked. I did not believe I had cancer any longer. I asked my Oncologist for another test or biopsy. He was adamant and said I don't know what quack book your reading, but you have dead tumor cells and you need surgery. He explained that with inflammatory breast cancer, if one cell remains it would spread and no treatment would be available. At this point, I would have taken any chances but my family was hysterical, so I resigned myself to have surgery

(masectomy). After surgery, the pathology test were done several times because they could not find any dead tumor cells. One doctor said that this did not follow any logic and didn't know what to make of it.

Doctors couldn't believe progress of tumor pressing on brain

Albie, Australia: I used the 3 herbs on myself and my mother who had a benign brain tumor pressing on the part of her brain that is used for memory recall (short term). It was also growing. I gave her the herbs as well and her memory didn't deteriorate and actually got better as we progressed with the herbs and tincture. The doctors couldn't believe her progress. Her blood pressure dropped and she was feeling very well. I am not a doctor but know my mother well and know when things work on her. I had eczema which I rid with the same herbs and bad breath. Also a friend who was suffering the pre stages of colon cancer and was on heavy chemo and drugs. I gave him the herbs, etc. and within a week his doctor said he couldn't understand what happened. My friend didn't want to say "Oh, 3 little herbs cured me" to the doctors \_\_ they would laugh at him. He thanked me implicitly over and over for pointing him in the right direction.

Lump in breast gone in two weeks

Debbie McNeese, KY: I found a lump in my breast approx. 5 months ago. Unfortunately, I rarely go to the doctor for anything. I believe that most things can be healed herbally, if we have the proper knowledge. A month ago my father was diagnosed with Stage 4 cancer. My father being the skeptic that he is decided to follow the "normal" methods of cancer treatments, chemo and radiation. I decided I would try the Clark parasite cleansing program and started on it about 2 weeks ago. I pretty much forgot about my lump being concerned about my father. Then, one night I was doing my breast self\_examination. As I was feeling around for the lump, I suddenly realized there wasn't one. It was completely gone. My project is to convince my father that this is the hope that he has been searching for. Thank you Dr. Clark for not being afraid to share the TRUTH about cancer with the world.

Dr. Clark alerted me that my desperate health condition was related to dental work. Symptoms of Mercury Poisoning are too numerous.

The Cure For All Diseases has made an enormous difference in my life, specifically my health, which was deteriorating rapidly. About three years ago, I experienced many symptoms: pain, swollen joints, confusion, weakness, a general debility. My left hip became so lame I could not climb stairs, could barely hobble. Dr. Clark's book came as answer to prayers.

I began following all her instructions, herbal, zap, kidney cleanse which helped my bladder which was a problem the urologist could not help. Next the Dental Clean Up. I had gone to a holistic dentist to have my amalgam fillings removed and replaced. Dr. Clark alerted me that my desperate health condition was related to dental restoration! Searching, I discovered one dentist with the competence to handle Dr. Clark's Dental Clean Up. He immediately removed upper and lower fillings after the Hair Test for Mercury revealed I had dangerous amounts of amalgam, lead, mercury, silver, aluminum, cadmium and other metals. The DMSA 24 Hr. Urine Mercury reported the same as the Hair Test. My Mercury Count was 33, (desired range being 0\_3). Some symptoms of Mercury Poisoning are: decreased senses of touch, hearing, vision, taste, fatigue, lack of physical endurance, numbness and paresthesias, hypertension, irritability, immune suppression, renal dysfunction and failure, tremors and incoordination. I have experienced all the above symptoms. Only with my first of Mercury Detox Treatments could I begin to feel my toes again, so numb were

they, which had made me very clumsy walking. I have much dental work yet: 4 root canal extractions, numerous cavitations (infection in jawbone canals), replacement of fillings. I have had over 15 Chelation Treatments, some EDTA, some minerals and vitamins and I have taken orally 28 DMSA capsules, 500 Mgs. I started the treatments in September and received the eighth Mercury Detox Treatment January 14 and the next Urine\_Mercury 24\_Hr. Test January 17. Besides the time, my costs will be over 3 times the \$8,000 paid for the dental restoration. Is this fair treatment for an unsuspecting American citizen? I know Sweden and other countries have handled the amalgam problem. We need Legislation! I have no words to express my esteem and gratitude to Dr. Clark for her great gifts to humanity. I know her as a saint and scientific genius, an untiring worker for all mankind. I know that I owe her my life. I bless the day she came into the world!

Highly suspicious lump completely gone, and no trace for 2 years

Pamela Smith, Creston, CA: I read Dr. Clark's A Cure for All Diseases because a friend had been diagnosed with cancer. Also, my mammogram showed a highly suspicious growth. My doctor recommended an immediate biopsy, but I decided to give Dr. Clark's protocol a try first. Within 3 weeks, the lump was completely gone, and there has been no trace for 2 years. I have changed my life, and my health, and will continue Dr. Clark's maintenance protocol for the rest of my life. We make our own soaps, lotions, and shampoos, and use many of Dr. Clark's recipes since she had supplied alternatives to everyday products. Dr. Clark is a true humanitarian who has given us a common sense approach to cleaning up our lives and our world. We have a responsibility to pass that information on to others, including future generations. Why continue to support research for cures when the answers are simple? We all need stand up and fight for our lives and the lives of future generations and Dr. Clark has shown us how.

Breast cancer, rejected chemo and surgery. Followed Dr. Clark therapy and clinical lab verifies no sign of malignancy or abnormality

I was diagnosed with breast cancer in 1995 and was advised by my oncologist to have the usual treatment of chemo and surgery. Instead, I found Dr. Clark's book and followed the instructions therein. I received a certified letter from my M.D. George D. Cave, taking himself off my case ( not wanting to be connected to my death due to my decision not to have surgery) dated June 15, 1995. I have a letter from Scripps South Bay Imaging Center in Chula Vista, Ca. dated 04/16/ 98 to my M.D. Luis Perez, 790 Otay Lakes Rd. saying that there is no sign of malignancy or abnormality. This data can be verified from medical records.

Dr. Clark saved my life and helped 2 others diagnosed with cancer

Mary Ellen Johnson: I just wanted to add that Dr. Hulda Clark saved my life. I was very ill, read her books and put myself on the parasite program e.g. herbs and zapping, amalgam removal. I now have a life again. I have helped at least 2 other persons who were diagnosed with cancer. They too are alive and well. I am anxiously awaiting arrival of the new book.

Met people whose cancer tumors were reduced or disappeared. saw before and after x-rays of large tumors and then reduced tumors

Susan Ambrosius, Linda Rohrs, Port Townsend, WA: We have benefited by following Dr. Clark's health care instruction and applaud her trail-blazing efforts to help sufferers regain their health. When we visited her clinic in Tijuana, Mexico we met people who had their cancer tumors reduced and in some cases disappear with her professional guidance. We saw actual X-ray films of the large tumors and the reduced tumors of some of her patients who excitedly showed us their progress. At her clinic we were cautioned that Dr. Clark was not a medical doctor nor licensed physician but a naturopath.

Restoring health naturally is the medicine of choice by most Americans and will only grow exponentially in the years to come. And Dr. Hulda Clark has been one of many naturopathic physicians who have devoted their lives to reducing suffering and disease.

Witnessed three cures by following Dr. Clark's book. Breast cancer cured, prostate cancer cured, terminal lymphoma cured

I am a witness to Hulda Clark's Gift to Humanity. In 1997, my grandfather was diagnosed with lymphoma. Less than six months later, he died from complications with chemo. Disillusioned, I did intensive research on alternative treatments for cancer. Dr. Clark's *The Cure for All Cancers* was a revolutionary book. I have passed the book on to friends diagnosed with cancer.

1) A previous landlady in her 30's had malignant breast cancers. After three weeks on Dr. Clark's program, she returned to her doctors cancer\_free. The doctors insisted on surgery, and were surprised to find them all benign.

2) Same for my husband's grandfather who was diagnosed with prostate cancer. Grampy, who was in his 80's followed the program and returned to his doctors with no trace of cancer on his body.

3) An office mate in her 20's was diagnosed with lymphoma. She believed, as did everyone, she was terminally ill. As a last effort she followed Dr. Clark's program. Same thing happened, she returned to her doctors cancer\_free. That was a year ago. She is now completely healed and has even given birth to a baby girl this year! I continue to recommend this book, as do the rest of my family who have seen it work. A true gift, not just for cancer, but also for the healthy. Dr. Clark has set me free!

Answered phones and letters for Dr. Clark daily. hundreds upon hundreds singing her praises and that Dr. Clark saved their life or a loved one

Charisma J Lockhart: I have had the enlightening experience of working for Dr. Clark as a customer service representative. On a daily basis, I answered phones calls and opened letters full of praise about Dr. Clark, her books, and her therapies. After speaking with hundreds upon hundreds of extremely satisfied customers singing her praises, interjected only by a blessed few complaints, I became a wholehearted believer. There are many people in this world who truly feel they owe their life, or the life of a loved one, to Dr. Clark and her studies and that is something few medical professionals these days can profess. Dr. Clark is a devoted and tireless crusader for the Betterment of Life. She asks for nothing, lives on even less, and happily trudges onward through every up and down hurdle towards the greater goal of health. She freely teaches her therapies and publishes her findings nearly as soon as she discovers them. The best statement of support I can give is that my fears about "Terminal Illnesses" are snubbed out by the knowledge that Dr. Clark and her colleagues are around to help.

Never got rid of cancer until Dr. Clark's book. results from the AMA'S test before & after

John P. Wilson: For the last 25 years I have been using many alternative therapies (raw foods, fasting, colon cleansing, etc.) to combat cancer and arthritis. Though they helped I never got rid of cancer until I followed Dr. Clark's book. I followed it to the letter. I have results from the AMA'S test before and after. Today I am completely. Praise God and thank you Dr Clark.

Stomach cancer gone, doctors amazed; had cervical cancer for years that disappeared in few weeks

J. Yvon: my father developed a stomach cancer. I followed Dr Clark's program and a couple of weeks later the cancer was gone. The doctors were amazed. I also knew a lady who had developed a cervical cancer that she had for years. I told her to try Dr Clark's method and a couple of weeks later the cancer had disappeared and the tumor had also shrunk.

Dr. Clark's therapy cured lung cancer in a very short time

David C. Spencer Sr., North Braddock, PA: I was informed that I had prostate cancer. I used Dr. Clark's therapy and my PSA was a long way past the danger point, and doctors were amazed that the cancer had been contained in the gland for such a long time. Radio Active Implants were injected to kill the tumor. I believe that Dr. Clark's therapy prevented the cancer from spreading throughout my body. The reason I refused the doctors to operate for so long is that my brother was previously informed that he had lung cancer and had him scheduled for an operation to remove one of his lungs because he could not raise his left arm as he was in much pain. He used Dr. Clark's therapy and his cancer was cured in a very short time. And he had recovered enough to take a full time Job.

I was one of the lucky ones who read Dr. Clark's "The Cure for all Cancers"

W.M.K Ford: Dr. Clark's book has helped me tremendously. She is a magnificent, self\_sacrificing woman. I was one of the lucky ones who read The Cure for all Cancers. I had cancer but it has been two months longer than the doctors said I would live. My last cat scan shows that it has not progressed and will eventually regress with my life\_style changes and more treatments.

I had breast cancer and 30 years of gallstones. Had I followed the usual route as a lot of people that I cared about do, I would have been long gone by now

To Hulda Clark, I am very happy to have this opportunity to let you know that your book, A Cure For All Cancers, is the reason I am alive and doing well today. I had been informed that I had breast cancer; and decided to give it a try, since I had absolutely nothing to lose. Not only did I meet the parasites on the fifth day, what a sensation it was feel the critters writhing around in protest. I also had about 30 years worth of gallstones to get out. I had for years been seeking a way to do that being totally frustrated with the medical establishment that informed me the only treatment was removal of my gallbladder. Cannot tell you how happy I was to actually meet those stones after so many years. And, after a year and a half of periodic cleanings, my chronic shoulder/arm aching left. I am still working on the gallstone problem \_\_ want them all out! I am unable to find a dentist who will remove the toxic metal from my mouth, but I have learned to listen to my body and know what is going on so I am able to keep things in check. We made and use the Zapper and what a wonderful thing. I have used it on my pets and saved their lives in an hour! Have used it on my family for quite a variety of reasons. You have given me a far greater understanding of how our bodies work, that enables me to know what to do in response. I cannot

thank you enough. Had I followed the usual route, as a lot of people I care very much about do, I would have been long gone by now!

Father-in-law, 86, diagnosed with terminal prostate cancer. In 20 days PSA returned to normal, no sign of cancer. If not for Dr. Clark 10 year old son would not be here today

JT: I wanted to thank Dr. Clark for all the lives she has saved, including my father-in-law, who at 86 was diagnosed with "terminal" prostate cancer. In 20 days his PSA had returned to normal and there were no signs of cancer. I know at least two dozen people that I told about this and all are doing well. I have a web site on the internet, and I visit the health chat rooms. In the last two months, I have probably sent at least 100 people to your web site and will continue to do so as long as people have cancer. Dr. Clark is a wonderful woman. Myself, sister and mother all came to Nashville to see her. We all had health problems of different kinds. If it hadn't been for her my now 10 year old son Garrett would not be here today. I had miscarried a baby before Garrett and none of the medical doctors could figure out why. But Dr Clark figured out that I was low in progesterone. I then started getting progesterone shots throughout my pregnancy and had a healthy baby boy.

PSA went from 85 to 0.1 six months later and no longer has prostate cancer

In the '60s my father had prostate cancer, the doctors operated, strapped a bag to him, and for the next five years I watched him die. A man of 160 lbs. down to 80 lbs., five more operations, 52 radiation treatments. Lots of pain and suffering. It tore the heart out of my mother and me to see him dying and "believing" the doctors were doing ALL and everything that modern medicine had. A year later my mother had breast cancer, and she too did what the doctors said. She lived 2 years and died. My wife in '84 found out she had breast cancer. I felt that cancer was the death word again. She had one breast removed, radiation, and waited for five years to pass the so called safe zone. In the 6th year the cancer came back, so much for the safe zone. In the '90s she has had several operations, radiation and chemo (cut, burn, and poison). She still feels that the doctors know best.

In October '98 I found out that I had prostate cancer. PSA started upward 65.8, 75.6 and 85 in Nov. Two doctors told me NOTHING about the way they treat prostate cancer has changed in the last 50 years. THIS IS ABOUT THE ONLY THING THAT I AGREED ON, THAT THEY HADN'T DONE A DAMN THING TO CURE CANCER, even with all of the billions of dollars. Both doctors gave me TWO (2) years to live. I had been taking saw palmetto with zinc and selenium before going to the doctor the first time and noticed the swelling would go down and that urination was easier. I asked the doctors if they thought this was good? ANSWER: THAT'S ALL A BUNCH OF B.S. AND QUACKERY! Again I put "trust" in the doctors, but this time I was "cautious," however I did agree to testacies removal, but was determined not to go through any radiation or chemo.

A week later, I guess GOD guided me to Dr. Clark's' book, A Cure For All Cancer. I bought the 3 herbs and +Zapper. In 14 days my PSA was 15.8, 30 days later is was 0.2 and 6 months later it was 0.1. I did not only rely on the PSA, I did thorough independent blood lab Health Check, several CEA and a full blood work up. I do not have cancer anywhere, any more!

I believe in Dr. Clark's treatment. Most of all I believe in taking hold of yourself, reading all that is out there regarding Alternative Treatments, and most of all I am convinced that the AMA, FDA, CANCER TREATMENT CENTERS, HOSPITALS AND THE DRUG INDUSTRIES DO NOT WANT CANCER CURED.

The reason is MONEY. What would they do if people didn't have cancer? I have talked with a dozen or more people who have come to me with less cancer and several with more cancer than mine, and they too have taken the 3 herbs and used the Zapper. they too have no more cancer! Larry had three tumors on the out side of his stomach, a spot on his lung, colon cancer and pancreatic cancer. With the zapper, the 3 parasite herbs, juice therapy, colonic irrigation and C-herb patches, he is TOTALLY cured after 6 months of treatment. The doctors told him they couldn't do anything for him and 54 months was his time. It makes me so mad to see the so called medical community asking for more money for research, yet still practicing the same old (cut, burn and poison) treatment, and debunking any other treatment as B.S. And the worst is that so many of us, my wife included, still have faith in them and in what they say.

I know there are very good and dedicated doctors out there, the problem is in their training (the medical schools are controlled by the AMA).

**IF YOU HAVE CANCER, ANY KIND OF CANCER, READ ALL YOU CAN ABOUT ALTERNATIVE TREATMENTS. I DID AND I BELIEVE THAT I WILL NOT DIE FROM CANCER.**

Nephew successfully healed of inoperable cancer tumors using clark herbs and Zapper

Elizabeth A. Gregory, R.N., C.O.H.N. (Semi Ret): Ruth Harvey in Noxon, MT told me of the success of her nephew being healed of inoperable cancer tumors using the three parasite herbs and Zapper. She thinks the world and all of Dr. Clark. I feel her program, enhanced by other modalities, have gotten me 95% healed from Multiple Myeloma. I was never able to get the metal removed from my teeth, and getting over multiple fractures to the Lumbar Spine plus severe ospeoperossis (in part due to M.M.).

Dr. Clark's crime is that she cured cancer. cured my mother of major BRAIN TUMOR, friends with COLON CANCER, SEIZURES, severe skin disorders, the list goes on and on

Albi, amz@bluedog.apana.org: I read Dr Hulda Regehr Clark's. I have applied her simple practice and have cured my mother of a major BRAIN TUMOR, cured a friend who had COLON CANCER, cured SEIZURES, another with servere skin disorders \_\_ the list goes on and on. I am from Australia and am amazed at how the medical profession persists in making billions of dollars off the backs of ordinary people's health world wide. There has to be an end to this carnage. Dr. Clark is the most wonderful person for standing out from the ordinary leaches that prey on the innocent. It's glaringly obvious to free thinking people where the source of this prosecution is coming from. Her crime is she cured cancer and the opulent medical profession and their partners in crime the tobacco company moguls are not going to get away with this. We the people of this world community will fight for justice and truth. Dr Clark is honest and brave to have stepped out of her safe environment to help people with awful disease. I just hope you of your family don't ever get cancer, then maybe you will find yourself calling on her services.

Clark therapy cured mother, 76, of cancer

Karen Svihus: Dear Hulda, we appreciate all your work. My mother, 76, used your program and was cured of cancer, she has been on the maintenance program for 14 months. She has now been diagnosed with spinal spindalosis, the spinal has grown and is now pinching the spinal cord. Is it possible to bring my mom to your clinic to get healed. She is in the hospital now because of the

intense pain every time she moves. If I could get her down there is there a hospital she could be cared for while we worked with you?

3 year survivor of colorectal cancer due to Hulda Clark

Paul Kabasinkas Graff: Why are so many other countries accepting Clark's protocol with open arms yet this "land of the free" is persecuting and suppressing this alternative health care? Please look into this! Surely with your education and exposure you see that the medical society only works on symptoms not on cures. Why are medical doctors allowed to promise success with surgery, radiation and chemo with their very poor rate of success? My husband at 71 is a 3 year survivor of colorectal cancer due to Hulda Clark. Do you realize the hope and success and improved health this gracious lady has bestowed on many?

Liver tumor stopped growing, liver value is better than ever

Timo Parviainen Riihijarvenkatu, FINLAND: My acquaintance had VERY BAD liver cancer, big growth in liver and many metastasis in different places. Now about 3 months and growing has STOPPED and liver value is better than ever!!! GREAT! I thought to try someone well known in Finland who has cancer. It is good opportunity to make this device known in here Fmland.

Flew to Dr. Clark's clinic in Mexico. Met many given death sentence by doctors, yet were becoming well

Julie Gardner: For years my health had declined until at age 47 I was so weak and ill that I trembled as I moved through each day, so totally exhausted that I could hardly function. As I made the rounds of physicians and specialists, submitting to countless tests, searching for a diagnosis and then a solution to my problems, I discovered that not one doctor could tell me anything about my condition. We can't find anything wrong with you or our tests show nothing to indicate what the problem is. Slowly the light began to dawn medical science had many gaps in it many holes in the training of its doctors. So I began to understand that if things were going to improve with me that I needed to look elsewhere. I started to study and read and seek out alternative methods of healing, and it was at this time that I heard about Dr. Hulda Clark and began reading her books. Immediately I was impressed with the soundness of her teachings it just made sense and sounded right. Slowly I began to change my eating habits, started killing parasites and had all my mercury fillings and root canals taken out. I proceeded to clear my home of as much of the toxic products I could and started to eat more organic and whole, unprocessed foods. Now, 4 1/2 years later I am stronger than I've ever been, full of energy, no longer suffering from anxiety life is so good because of the things I learned from her and from other alternative practitioners. I even flew to Mexico and visited her, and while there I met many people who were given a death sentence by the medical profession and yet were becoming well by following her practices

Liver cancer, after Clark therapy no SIGN of cancer in her body

Hank Karels tells of a friend with liver cancer scheduled for surgery, chemo and radiation, but declined. After Dr. Clark's therapy another specialist redid her tests. "She was told they could find no evidence of cancer in her body."

Couldn't believe how fast she got better from cancer

Taverne: I am a 36 years old Italian woman and I live in Switzerland. Since about 3 years I had cancer. 2 of my friends died from cancer in the last 12 months. I discovered the book of Dr. Clark only about 2 months ago. I made the cure described, all with natural products, and I am healthy now I could not believe how fast I got better. I wished I knew this cure sooner: my friends would still live.

Told me to bring dad home and bury him. AFTER CLARK THERAPY he Now deep sea fishes

Jake Jakobik: Four years ago my father was at Walter Reed and they told me to bring him home and bury him. Two throat radiations and three operations didn't help! They watched him "die" for 10 months. He zapped the whole time. Now he deep sea fishes!

Dr. Clark's work is known worldwide. Her books have helped hundreds of thousands of people find solutions to their health challenges; these solutions have contributed to restoring these enlightened people to optimal function. Carol Adler

Was told nothing else could be done with Stage III Interductal Carcinoma 7 years ago. found dr. Clark's book, followed simple instructions and still alive seven years later

Virginia M. Beckman, WA: I was diagnosed with Stage III Interductal Carcinoma seven years ago. I underwent surgery (masectomy), chemo and started radiation but was too burned to continue my treatment. I was told there was nothing else that could be done for me. I went home and began to pray. I found the book by Hulda Clark and followed the simple instructions. As a result I am still alive today! In fact on the 5th day of taking the herbs I had my physician take a blood sample and found that I was no longer anemic as I had been for the past 18 years. I have continued to do the things that Dr. Clark says to get rid of parasites. What she says happens, it happened to me. I passed many worms! When I did the liver cleanse many of the pea green bile covered stones came out painlessly.

After the clark parasite cleanse, A mass half the size of fist was gone

Lynne Hoverson: I am a woman, 56 years old, owner of my own company and mother of three grown children. Several years ago I began to have a swelling in my abdomen just above the pubic bone. Over one year it grew slowly and persistently, slow enough that I did not go to a doctor, yet persistently enough that I had to accept the fact that it was really there. My lower abdomen was definitely not flat there when I lay down, and I couldn't push it down. At that time I did Dr. Clark's parasite cleanse. I did not do it for the above cause at all. As I said, I had accepted the condition. Just before the last days of the cleanse I awoke one morning and stretched and felt my abdomen. At the point just above my pubic bone, it was suddenly hollow! A mass about half the size of my fist was gone. I never wanted to know whether it was a tumor or a parasite infestation or what\_I was simply happy it was gone. It has never come back.

Had lumpectomy for breast cancer Jan. 1994. no to masectomy, chemo, radiation. used zapper for a year, no recurrence of cancer, feels fine

Edna E. Roeh: I had a lumpectomy for breast cancer January 1994 I chose not to have a masectomy, chemotherapy or radiation. I got Dr. Hulda Clark's book "A cure for all Diseases," also her "zapper" to kill parasites that all people with cancer have. My husband, who had pancreatic cancer in 1985 used flagyl (kills parasites) for 6 weeks, was free of pain in 4 1/2 weeks, gained 15 pounds, enjoyed travel & lived 6 months pain free. I used her "zapper" for over a year, have had no

recurrence of cancer, feel fine. Her method is inexpensive, painless, can see & get results in a short period of time.

Six months after finishing dental work mammogram showed all fibrotic cysts gone

I'll try to briefly tell you that your treatments have helped me in a big way. Since about 1970 I have been diagnosed with fibrotic cyst in my breasts. I had all my dental work changed from metal fillings to plastic fillings, costing about \$1,000.00. It was well worth it, I had a mammogram taken about six months after finishing my dental work and all my fibrotic cysts were gone. I do parasite treatment every week and many of the other suggestions in your books such as make my own soap, wash my clothes with borax, etc. Keep up the good work and put all doctors and hospitals on the prevention of disease rather than promoting it.

Used Clark therapy for Pancreatic Cancer. NOW FINE AFTER medical science had given up on her

I'd like to offer you the testimony of our elderly neighbor who was diagnosed with Pancreatic Cancer, and medical science had given up on her. Her flesh had an orange color to it. Late last year she acquired your book, Cure for All Cancers, bought the herbs called for in the book and took them faithfully. In a month her color was back to normal and her waistline decreased three inches. With great energy, this eighty four year old great grandmother, who lives alone, resumed her household duties, cooking and baking for her large extended family.

Would not be alive today if not for Dr. Clark. She is prospective Nobel Prize winner for cancer and Aids

John Doyle, England: Dr. Clark is a prospective Nobel Prize winner for her humanitarian work especially for cancer victims and Aids patients. She has world renown fame, in fact here in the UK I have many testimonials to her therapies effectiveness. I personally do not believe and neither do my friends and family, that I would be alive today if it were not for her. I have personally witnessed cancer patients get better just by following information freely given in her books. She is not interested in accumulating great wealth from her discoveries but just helping mankind with terminal and tragic illnesses. The orthodox cancer route does not seem to be getting far. Dr. Clark's work is well documented with case studies to back up the numerous testimonials of success. In her books she says the following:

"The medical profession overlooks information on prevention, it tries to make self-help and simple treatments illegal. Besides the moral issue there is a practical one. It would benefit society much more if the sick person were quickly rescued and helped back to productivity. A healthy society benefits each of us immensely. Likewise a sick society injures us immensely even when it is half a planet away. With this book I hope to give away as many secrets as I can about the cause and cures of all cancers, letting the truth come first and "Professional concerns" come last. The human species can no longer afford to make a business out of illness. This book is intended as a gift to humanity. I make a plea to the medical community not to suppress this information but to disperse it regardless of embarrassment or liability from the simplicity and newness of the cure, provided only that it meets your standard of truth."

Dr Clark's book showed me the way to restore my health with no charge to me or the many people here in the UK who have benefited from her therapy. It is time for her fellow man to help her. Her research has been taken up by medical doctors and alternative therapists alike all over the world,

and Clinics have been set up due to the response of word of mouth referrals from overjoyed patients. There is no way either Dr. Clark or her work will be stopped now, regardless of the outcome of this case. This genuinely humble lady who works 12 hours a day, 6 and 1/2 days a week really does deserve our support and backing, and those opposing her should be brought to shame for imprisoning her for saving lives. Who knows which one of us may get the dreaded news that we have cancer. Many victims have said to me that orthodox treatment for cancer is worse than the disease. However, the treatment Dr Clark advocates is not horrendous, is easy to administer at home and does no harm. If you want testimonials this can be arranged. Please give this plea your urgent attention. Your cousins across the sea in the United kingdom.

Friend's cancer in remission after treatment at Dr. Clark clinic. her work highly respected by open-minded medical doctors.

I know of Dr. Clark's good works through my own contact with her writings, as well as firsthand experience of a good friend whose cancer went into remission after treatment at her facility. Her work is highly respected by many open minded medical doctors, as well as many in the alternative medicine community. David Deutsch, VA

A dozen people told me Dr. Clark saved their life

Internet, Dana Sherel, CA: "A dozen people told me Dr. Clark has saved their life. I worked for a bookstore that sold Dr. Clark's books, and they are the only books people call back repeatedly to order for their friends and loved ones because their life or that of someone they know was saved by using her program."

Dr. Clark helped many cure degenerative disease throughout world

Nutritional Therapist in Chesire, England: I am a registered Nutritional Therapist in Chesire, England. After reading Dr. Clark's book, I have used the Zapper to help many of my clients, notably to eliminate parasites. One whole family was infected with scabies, after being misdiagnosed by the family Doctor as having eczema. When the correct diagnosis was made, the infection had become intolerable. They used the zapper daily for a week, with herbs and followed up with a liver cleanse, and have been free of the scabies mite since that time. Several of my clients come to me for advice and help because they are aware of having intestinal parasites that medication from their Doctor had failed to eradicate. The zapper, together with herbal and dietary advice has been invaluable. One of my clients was due to have surgery for gallstones. In the eight weeks prior to her booked operation, she used the zapper, and performed three liver cleanses. The result was that her Consultant congratulated her on eliminating gallstones without surgery. Dr. Clark devoted so much of her life to research into health and has helped many people to cure degenerative disease throughout the world. Sheri Dixon, England

Small breast tumors benign

Audrey Pollock had biopsies for small breast tumors on 3 occasions. She did the Clark therapy and each time it was benign. Her doctor said it was highly unusual, as he expected cancer.

Skin cancer gone

Mary and Bill, NC: "It's four weeks since we started Dr. Clark's program and we're seeing results. Bill's skin cancer is on his forehead, and it's getting smaller. Folks are commenting: 'You're getting

better.' Yes, he's getting better. The cancer on his back has started to shrink. It's absolutely amazing."

There is not a cure for cancer because too many people are making too much money on the conventional, ineffective methods

Amy Dahlquist, MN: The only reason there is not a universal cure for cancer today is because too many people are making too much money on the conventional, ineffective methods used by hospitals and doctors, including radiation and chemo. The only reason Dr. Clark, Dr. Burzynski, Max Gerson, Mrs. Caisse, and the many others have been and are being persecuted to this day, is because the Medical Board will not give them licenses to practice because that would take away their money making business.

The monster pharmaceutical companies

Arun Banerji: Dr. Clark is helping people and the public officials of American People are kissing the asses of the monster pharmaceutical companies that are a scourge to the planet (after much studying in this area, I am not overstating this).

People are going to know the truth behind the "cancer scam"

H. Hendrickson: Dr. Hulda Clark has accomplished in a very short time, what will take the American Cancer Foundation, the FDA and others forever due to bureaucracy and ultimately greed. I assure you, people are going to know the truth behind the "cancer scam", and when they do, all who were involved, or in any way responsible for the deaths of these innocent victims will have there day to serve justice.

Dr. Clark's crime is she got too close to the truth

Jaime: History is repeating itself. I think Dr. Clark's only crime is that she got too close to the Truth. If you want the truth, just follow the "money trail." I predicted this would happened as soon as I found out about her new upcoming book, "The cure For Advanced Cancer\_ with a 21 Day Tumor Shrinking Program." Humanity may not appreciate what Dr. Hulda Clark is trying to give us, but GOD and I will. Our family have personally benefited from Dr. Clark's work God Bless Dr. Clark!

If I hadn't found Dr. Clark's work, I'd be one of the cancer patients receiving allopathic treatments

Arthur Lloyd AZ: First I would like to say how much I admire Hulda Clark and all the good she has brought about to those of us who have read her books. I first learned of her at Hanna Kroeger's seminar in Boulder, Colorado years ago. I have used all her methods of cleansing and have remained on that path. Until this day I practice her cleanses regularly. I believe if I hadn't of found her work I would be one of the cancer patients today receiving the allopathic treatments. When I did her parasite cleanse, kidney cleanse and liver cleanse I passed many parasites from my body and even kept a sample in a specimen bottle. They were clearly the ones she shows in her book as flukes.

Cured cervical cancer in 1994 with clark therapy, medically documented. simply amazed at lengths medical community will lobby to keep people sick

Debra A. Bradshaw: I am simply amazed at the lengths that the "medical community" will lobby to keep the people of this nation sick for the sole purpose of feeding their already bulging wallets and egos. I am federal government employee and a disabled veteran. My injuries and illnesses incurred in the line of duty for the US Army, and include lower back injuries and Persian Gulf Syndrome. The only offering of relief ever received has been surgery and pharmaceuticals. Then, along comes Dr. Clark, with a book that tells me I can continue whatever my regular doctor treats me with, but suggests I try some painless, inexpensive methods of dealing with the many disgusting problems I came home with. I am here to tell you, I have killed my own cervical cancer. This is medically documented, cost me about \$100 and was absolutely painless. All without the surgery that a multitude of doctors insisted I required. That was 1994 and no sign of any problems since.

I need Dr. Clark's treatment. It works and it saved my life and shrunk my tumor

Hernan J. Dell'Aquila, Argentina: My name is Hernan Dell'Aquila. I came from Argentina on July 31, 1998. On March 17, 1998 my doctor said to my parents: "Your son has a brain tumor, probably a Cystic Astrocytoma in the top of the brain spine. Unfortunately because of the tumor location, any surgical procedure may result unsuccessful. At the same time, without a biopsy, I can't recommend treatments using rays or chemotherapy. Finally, if you don't do anything, your son could die in 2 or 3 years." With this tragic diagnoses, my parents started to look for any possible medical treatment that could work and be safe. After consulting with specialists from different countries, in the neuro\_surgical field, and after receiving from them similar diagnoses as the first, my parents found the treatment of the Dr. Hulda Clark. I started on August 3rd, 1998 with the treatment of Dr. Clark, and on February 19, 1999, the last Cat Scan showed a shrunk tumor. Probably, the actual size of my lesion is 50% less, than at the beginning of the treatment. At the present, I continue with the treatment and go every Saturday to see Dr. Clark. I believe in the job of Dr. Clark, I appreciate her commitment with her patients, and I need her treatment for two reasons: First, it works and second, it saved my life.

Shrunk my own tumor completely.

Gloria A Hajek: Sixteen month ago a tumor was found on my left ovary. My doctor wanted to operate and as he state, remove everything. Removing everything seemed out of the question to me. I received two other opinions from conventional doctors, and they suggested the same things. None of them could tell me why I had developed the tumor, they just wanted to operate. None of them could assure me that I wouldn't develop another tumor. I started following Dr. Clark's therapy less then a year ago and have shrunk my tumor completely. I am in the best of health and I feel wonderful everyday. There is an alternative to surgery and thank goodness that we have a choice, and thank God for Dr. Clark and her dedication towards helping others help themselves.

In near-death condition I went to a homeopath who espoused Dr. Clark's healing

C. Lee Andrews: Over the period of ten years, my health had deteriorated to the point where I was forced to quit my job and I was completely bedridden. My body was bloated and wracked with pain. I could move and walk only with extreme difficulty and effort. The pain was beyond belief and totally beyond control. During that period of time I had had countless examinations and tests by the finest medical professionals in Missouri, Iowa and South Dakota, but cause and cure were not forthcoming. In this near\_death condition I arrived at the doorstep of a homeopath who espoused Dr. Clark's healing and diagnostic methods. Within a week I was diagnosed and put back on the road to healing. At the end of only ten days I actually drove home myself and began a strict

regimen which has healed me. I am now back at work and am also a full\_time student at a local college.

Prevented me from having reoccurrence of cancer

Jay Taft: "My dad, uncle and a female cousin have all died of cancer so I am grateful to Dr. Clark for her book which I feel has prevented me from having a reoccurrence of cancer."

I OWE MY LIFE TO DR. CLARK. PSA went from 75 to 0.1, CEA TEST OF 2.3

Conrad McPherson, San Antonio, TX: I am 60. August of 1998 I went in for a general physical. The doctor gave me a prostate exam, sent me for blood workup, and my PSA was 65. They sent me to an oncologist, another PSA at 75.8, did prostate biopsy samples, very painful stabs. The results, "You have a severe case of prostate cancer, I give you two years to live. We can do testicle removal, and chemo, however, this will only get 90\_95%. The remaining we can not get, and you may live for 5 years instead of 2 statistically! "We have not come very far in the last 50 years, to do anything other than the accepted procedures I have discussed."

I felt that what ever it takes, cut, burn, poison, if need be, 5 year option was better than the 2. I agreed to the testicle and the chemo. I went through the full battery of test, X\_rays, bone scans, heart readings, etc. with no detection of cancer in other places, however, it had metastasized outside the prostate into the surrounding area. By now my PSA was up to 85.0. I went into the hospital and let him do his thing. You are willing to do anything, because we all have grown up with the belief that, aside from God, the doctors are the next best thing to keep us alive! All this happened in Oct 1998. Both my father, with prostate cancer (5 operations, and 52 treatments of radiation) and my mother with breast cancer (masectomy, radiation, she lasted 2 years). They also believed everything the doctors said. I had it done because of the same belief. The chemo medicine, I looked it up plus talked to several pharmacists, and my conclusion was the side effects are worse then the cancer, plus its effectiveness is doubtful.

Sent home to die of cancer, now well. Another woman with breast cancer cured

Genevieve Hinds, Lakewood, CA: Nearly all my life, I have had conditions which doctors either couldn't identify or couldn't cure. So, I had to use natural methods to keep myself healthy. With the knowledge that Dr. Clark passes along to us, it is easier than ever before to stay well. I wish I had her Syncrometer many years ago when two different doctors suspected that I had lupus, but the symptoms were not yet strong enough for traditional tests to confirm. But when a few years ago I had a rash that was spreading more each year, and nothing would get rid of it, I zapped that stubborn rash away. Although I have been sickly nearly all my life, I now follow the instructions that Dr. Clark wrote, and am one of the healthiest people I know. Friends also have benefited. A close friend and his wife follow Dr. Clark's instructions. They told me that a cousin's friend was sent home to die of cancer. He followed Dr. Clark's instructions and is now well and back at work. My 87 year old mother returned from Russia with stomach problems that her doctor couldn't fix. She was very sick and worried because for the first time in her life she was too sick to eat. Mother was cured fast and thrilled with the results. Another friend with breast cancer went to Dr. Clark's clinic and was healed. Diseases don't show up on regular tests until we are sick, but with Dr. Clark's methods we can identify them and cure them before we have uncomfortable symptoms. And we can correct problems that our doctors cannot.

Visited Dr. Clark in Mexico. she has the answer to our health problems and is a threat to medical establishment because people can heal themselves without expensive procedures of AMA

Doreen Moss, Ellensburg WA: I have bad health related problems down through the years. I found Hulda Clark's books, followed instructions and now have much improved health. In 1995 I had the opportunity to visit Dr. Clark in Mexico and using her methods, I believe she does hold the answer to so many of our health problems. She outlines the methods that the average person can understand and implement at very minimal costs. People can treat themselves without the expensive procedures prescribed by the AMA. She is threatening their income. I am not saying there is not a place for the AMA under certain circumstances. We live in a "free" country and Hulda Clark is giving those of us who choose an alternative means to good health.

Diagnosed terminal, in 20 days his PSA had returned to normal. two dozen people using clark therapy also doing well

All the lives Dr. Clark has saved, including an 86 year old who was diagnosed "terminal." In 20 days his PSA had returned to normal and there was no sign of cancer. I know at least two dozen people that I told about this formula and all are doing well. I have a website and visit the health chat rooms. In the last two months, I have probably sent at least 100 people to Drclark.net and will continue to do so as long as people have cancer. I am sorry to hear about Dr. Clark's arrest. Maybe her judge will get cancer and be cured by her program.

Gets rid of the underlying cause of cancer

John M. Robson, eximiusjr@aol.com, WA: For the first time, someone has taken the time to look at the etiology of disease that seems to transcend standard medical blindness regarding cancer. This promises to do the job of ridding myself and others of the underlying cause for cancer. I'm absolutely going to follow the course recommended for changing the physical condition that has created the ripe opportunity for cancer to manifest itself in my body. I'm also going to get every member of my immediate family on this regimen, and give copies to my friends.

Dr. Hulda Clark saved my life

Jill Hanna, Box 1292 Oracle, AZ 85623: Dr. Hulda Regehr Clark saved my life. I know I am blessed to receive her teachings.

Turned rapidly growing brain cancer into receding cancer.

Ralph Wyndham: My father followed Hulda Clark's cancer program and turned his rapidly growing brain cancer into a receding cancer. The doctor was so delighted that the catscan had shown that the cancer had receded.

Cancer tumors began to disintegrate. tumors in abdomen and left arm pit area began to shrink in size

Hachioji\_shi Tokyo, Japan: I am from Japan, and I was finally able to meet Dr. Clark and would now like to explain my health progress while receiving treatment from Dr. Clark. On June 13th, 1999 I had my first health examination with Dr. Clark. She found many different types of pollutants, bacteria, and parasites within my body. We then started off by removing the types of obstructions that were causing the weakening of my immune system. On July 21st the necrotic

sections of my body that were caused by my breast cancer began to form black scabs. This showed that the necrosis in my body was starting to terminate. With this, my own strength to fight this cancer was regained. On July 23rd there was a new finding in my blood test. The amount of bacteria in my blood had drastically decreased. My body then rapidly began to gain the strength to fight this cancer. On August 5th my whole body became covered with a rash and I began to itch all over. My cancer tumors began to disintegrate. Then the tumors in my abdomen and my left arm pit area began to shrink in size. Now, October 2nd my body tells me that it is only a matter of waiting for my cancer to completely disintegrate and disappear. I would also like to share that due to financial limitations, Dr. Clark treated me 2 to 3 times a week without charge for a over a month.

Friends with breast cancer spread to bones, another with breast cancer, both cured

kmarshal@globec.com. The wife of one of my friends had breast cancer which had spread to the bones in her chest. She used Dr. Clark's wormwood, cloves and black walnut tincture to kill parasites and then took various supplements to strengthen her immune system. She is very healthy now. Another friend's daughter\_in\_law cured her breast cancer with the three herbs. I was so impressed. I look forward to reading Dr. Clark's latest book "The Cure For Advanced Cancers" because so many relatives and friends have been affected by cancer.

Breast cancer 4 years ago totally gone

OMT: I had breast cancer 4 years ago. I followed Dr. Clark's Parasite Cleanse in her book "The Cure for All Cancers" and my cancer was totally gone in 7 months.

Double checked by two medical labs - cancer gone, tumor gone

Janet Goodrich: We just received the great news that Jill Lucky is cured of cancer. She is 30 years and was suffering from Stage 3. Chemo was failing her since there was a new growth after the chemo treatments. She was closely following the parasite cleanse and using the Zapper. She went to a local clinic for a body scan and was told that they could not pick up any evidence that she had cancer. Therefore, she had her M.D. schedule a special test in hopes that the medical community would agree with the alternative therapist. Sure enough, results came back that the growth of her tumor was not only retarded but showed no evidence of any tumor at all! She and her family have received the best Christmas present ever. Dr. Clark has touched another desperately ill person.

Bladder cancer so bad doctors could not operate, given 5 to 7 days. Now home doing laundry, driving to church

Don Zink, Miamisburg, OH: Two years ago, a lady told me she was supposed to have operation for bladder cancer. When they got her open, "They merely zipped me back up." She was waiting to go into Hospice. I let her daughter read about 20 pages describing Dr. Clark's cure. She asked if I could get some herbs. I told her I had some with me and it would take 5 days to kill the parasites that cause cancer. I "zapped" her and left. She called me 4 days later and said they were coming to take her to Hospice that evening. She asked me to come and get the "stuff" and use it for someone else, as it was too late for her. You cannot take anything into Hospice. She said she was ready to die, she hurt so bad. Later I learned several things. One, she had been "drained" once since her operation and they got a "gallon" out her. Two, she later told me they gave her 5 to 7 days, no more than 10 days at the most, to live. It was one week before she called me from Hospice. She said they drained another gallon from her. She called every 2 or 3 days and told me about others dying. She felt guilty because she was feeling better every day. I could tell that in her voice. It took almost one

month to the day from when she went in before they released her. I went to her house that day and she was in the basement doing her laundry. Within 2 weeks she was out driving to Church again. (there is more to this story).
